

as planning; NEPA compliance; NHPA compliance; ESA compliance; necessary studies; LOPP project development; design, construction, safety plan, and facility testing; and the start of hydropower production.

(j) An estimate of development costs. These costs will include all investment costs such as the cost of studies to determine feasibility; NEPA compliance; NHPA compliance; ESA compliance; other statutory compliance; design; construction; financing as well as the amortized annual cost of the investment; annual O&M expense for the hydropower development; lease payments to the United States; expenses associated with the Reclamation project; and anticipated return on investment. If there are additional transmission expenses associated with the development of the LOPP project, these expenses must also be included. The proposal must identify proposed methods of financing the LOPP project. The proposal must include an economic analysis that compares the present worth of all benefits and costs of the hydropower development.

Selection of Lessee

Reclamation will evaluate proposals received in response to this published Notice. Reclamation may request additional information from individual proposing entities and/or all proposing entities after proposals are submitted, but prior to making a selection of a lessee.

Reclamation will give more favorable consideration to proposals that (1) responsibly develop hydropower; (2) avoid, reduce, or minimize environmental impacts; (3) clearly demonstrate that the offeror is qualified to develop the hydropower facility and provide for long-term O&M; and (4) best share the economic benefits of the hydropower development among parties (including the United States) to the LOPP. A proposal will be deemed unacceptable if it is inconsistent with Bostwick Park Project purposes, as determined by Reclamation.

Reclamation will give preference to those entities that qualify as preference entities, as defined under Proposal Content Guidelines, item (b) of this Notice, provided that they are well qualified to develop and provide for long-term O&M of the hydropower facility. If one applicant is a preference entity and the other is not, and the preference entity's proposed plans are not as well qualified as the non-preference entity's plans, Reclamation will inform the preference entity of the specific reasons why its plans are not as well qualified and afford up to 30

calendar days for the preference entity to render its plans at least as well qualified as the other plans. All other applicants will be informed of this action. If the plans of the preference entity are rendered at least as well qualified within the time allowed, Reclamation will favor the preference entity. If the preference entity's plans are not rendered at least as well qualified within the time allowed, Reclamation will favor the other applicant.

Notice and Time Period To Enter Into LOPP

Reclamation will notify, in writing, all entities submitting proposals of Reclamation's decision regarding selection of the potential lessee. The selected potential lessee will be provided a maximum of 24 months from the date of selection to sign the preliminary lease, complete the requirements set forth in the preliminary lease, and to sign the LOPP. The lessee will have a maximum of 1 year from the date of the execution of the LOPP to complete final designs, specifications, etc., and an additional 1 year to begin construction. A maximum of 4 years is allowed, from the date of the preliminary lease to the beginning of construction. Maximum timeframes for construction will be determined by the Upper Colorado Regional Director. The above timeframes will only be extended for just cause resulting from actions and/or circumstances that are beyond the control of Reclamation or the lessee. Just cause and timeframe adjustments will be determined solely by the Upper Colorado Regional Director.

Dated: October 24, 2018.

Brent Rhees,

Regional Director, Upper Colorado Region.

Quarterly Status Report of Water Service, Repayment, and Other Water-Related Contract Actions

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of contract actions.

SUMMARY: Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation (Reclamation) and are new, discontinued, or completed since the

last publication of this notice. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: Michelle Kelly, Reclamation Law Administration Division, Bureau of Reclamation, P.O. Box 25007, Denver, Colorado 80225-0007; telephone 303-445-2888.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939, and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional

directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.
2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.
3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.
4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.
5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.
6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his or her designated public contact as they become available for review and comment.
7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to, (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director will furnish revised contracts to all parties who requested the contract in response to the initial public notice.

Change in Discount Rate for Water Resources Planning

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of change in discount rate.

SUMMARY: The Bureau of Reclamation is announcing the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 2.875 percent for fiscal year 2019.

DATES: This discount rate is to be used for the period October 1, 2018, through and including September 30, 2019.

FOR FURTHER INFORMATION CONTACT: Mr. DeShawn Woods, Bureau of

Reclamation, Reclamation Law Administration Division, P.O. Box 25007, Denver, Colorado 80225; telephone 303-445-2900.

SUPPLEMENTARY INFORMATION: The Water Resources Planning Act of 1965 and the Water Resources Development Act of 1974 require an annual determination of a discount rate for Federal water resources planning. The discount rate for Federal water resources planning for fiscal year 2019 is 2.875 percent. Discounting is to be used to convert future monetary values to present values.

This rate has been computed in accordance with Section 80(a), Public Law 93-251 (88 Stat. 34), and 18 CFR 704.39, which: (1) Specify that the rate will be based upon the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity (average yield is rounded to nearest one-eighth percent); and (2) provide that the rate will not be raised or lowered more than one-quarter of 1 percent for any year. The U.S. Department of the Treasury calculated the specified average to be 2.9176 percent. This rate, rounded to the nearest one-eighth percent, is 2.875 percent, which is a change of less than the allowable one-quarter of 1 percent. Therefore, the fiscal year 2019 rate is 2.875 percent.

The rate of 2.875 percent will be used by all Federal agencies in the formulation and evaluation of water and related land resources plans for the purpose of discounting future benefits and computing costs or otherwise converting benefits and costs to a common-time basis.

Dated: December 11, 2018.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1065]

Certain Mobile Electronic Devices and Radio Frequency and Processing Components Thereof; Commission Determination To Review in Part a Final Initial Determination Finding a Violation of Section 337; Schedule for Filing Written Submissions on the Issues Under Review and on Remedy, Public Interest, and Bonding; and Extension of the Target Date

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission (the "Commission") has determined to review in part the final initial determination ("ID") of the administrative law judge ("ALJ"), which was issued on September 28, 2018. The Commission has determined to extend the target date for completion of the investigation to February 19, 2019.

FOR FURTHER INFORMATION CONTACT: Carl P. Bretscher, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2382. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's Electronic Docket Information System ("EDIS") (<https://edis.usitc.gov>). Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal, telephone (202) 205-1810.

SUPPLEMENTARY INFORMATION: On August 14, 2017, the Commission instituted this investigation based on a Complaint and amendment thereto filed by Qualcomm Incorporated of San Diego, California ("Qualcomm"). 82 FR 37899 (Aug. 14, 2017). The notice of investigation named Apple Inc. of Cupertino, California ("Apple") as Respondent. The Complaint alleged violations of Section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), by reason of the importation into the United States,
