

mt of the 2018 Pacific cod TAC allocated to those vessels under § 679.20(a)(12)(i)(B)(4).

In accordance with § 679.20(a)(12)(ii)(B), the Regional Administrator has also determined that catcher vessels less than 50 feet LOA using hook-and-line gear, catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear, vessels using pot gear, and catcher/processors using trawl gear currently have the capacity to harvest this excess allocation. Therefore, NMFS apportions 60 mt of Pacific cod from the jig vessel apportionment, 40 mt of Pacific cod from the hook-and-line catcher/processor apportionment, and 580 mt of Pacific cod from the trawl catcher vessel apportionment to catcher vessels less than 50 feet LOA using hook-and-line gear, catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear, vessels using pot gear, and catcher/processors using trawl gear in the Central Regulatory Area of the GOA.

The harvest specifications for Pacific cod in the Central Regulatory Area of the GOA included in the final 2018 and 2019 harvest specifications for groundfish of the GOA (83 FR 8768, March 1, 2018) are revised as follows: 268 mt to catcher/processors using hook-and-line gear, 990 mt to catcher vessels less than 50 feet LOA using hook-and-line gear, 416 mt to catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear, 1 mt to vessels using jig gear, 1,787 mt to vessels using pot gear, 700 mt to catcher/processors using trawl gear, and 1,695 mt to catcher vessels using trawl gear.

#### Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocations of Pacific cod in the Central Regulatory Area of the GOA. Since the fishery is currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing

season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of December 20, 2018.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: December 21, 2018.

**Karen H. Abrams,**

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 679

[Docket No. 170817779–8161–02]

RIN 0648–XG684

#### Fisheries of the Exclusive Economic Zone Off Alaska; Inseason Adjustment to the 2019 Bering Sea and Aleutian Islands Pollock, Atka Mackerel, and Pacific Cod Total Allowable Catch Amounts

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; inseason adjustment; request for comments.

**SUMMARY:** NMFS is adjusting the 2019 total allowable catch (TAC) amounts for the Bering Sea and Aleutian Islands (BSAI) pollock, Atka mackerel, and Pacific cod fisheries. This action is necessary because NMFS has determined these TACs are incorrectly specified, and will ensure the BSAI pollock, Atka mackerel, and Pacific cod TACs are the appropriate amounts based on the best available scientific information. Also, NMFS is announcing the Aleutian Islands Catcher Vessel (CV) Harvest Set-Aside and Bering Sea Trawl CV A-Season Sector Limitation will be in effect for 2019, and TACs in this inseason adjustment will apply for 2019. This action is consistent with the goals and objectives of the Fishery

Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area.

**DATES:** Effective 1200 hours, Alaska local time (A.l.t.), December 21, 2018, until the effective date of the final 2019 and 2020 harvest specifications for BSAI groundfish, unless otherwise modified or superseded through publication of a notification in the **Federal Register**.

Comments must be received at the following address no later than 4:30 p.m., A.l.t., January 14, 2019.

**ADDRESSES:** Submit your comments, identified by NOAA–NMFS–2018–0801, by either of the following methods:

- **Federal e-Rulemaking Portal:** Go to [www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2018-0801](http://www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2018-0801), click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Mail comments to P.O. Box 21668, Juneau, AK 99802–1668.

**Instructions:** NMFS may not consider comments if they are sent by any other method, to any other address or individual, or received after the comment period ends. All comments received are a part of the public record, and NMFS will post the comments for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

**FOR FURTHER INFORMATION CONTACT:** Mary Furuness, 907–586–7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) set the 2019 Aleutian Islands (AI) pollock TAC at 19,000 metric tons (mt), the 2019 Bering Sea (BS) pollock TAC at 1,383,000 mt, the 2019 BSAI Atka

mackerel TAC at 72,500 mt, the 2019 BS Pacific cod TAC at 159,120 mt, and the 2019 AI Pacific cod TAC at 15,695 mt. Also set was a 2019 AI pollock ABC of 30,803 mt and a Western Aleutian Islands limit for Pacific cod at 25.6 percent of the AI Pacific cod TAC. In December 2018, the North Pacific Fishery Management Council (Council) recommended a 2019 BS pollock TAC of 1,397,000 mt, which is more than the 1,383,000 mt TAC established by the final 2018 and 2019 harvest specifications for groundfish in the BSAI. The Council also recommended increasing the AI pollock ABC to 52,887 mt from 30,803 mt. This increases some 2019 area and seasonal limits for AI pollock. The Council also recommended a 2019 BSAI Atka mackerel TAC of 57,951 mt, which is less than the 72,500 mt TAC established by the final 2018 and 2019 harvest specifications for groundfish in the BSAI. In addition to changes in TACs, the Council recommended changing the percentage limit of Western Aleutian Islands Pacific cod to 15.7 percent of the AI Pacific cod ABC, from the 25.6 percent of the AI Pacific cod TAC. The Council's recommended 2019 TACs, and the area and seasonal apportionments, are based on the Stock Assessment and Fishery Evaluation report (SAFE), dated November 2018, which NMFS has determined is the best available scientific information for these fisheries.

Regulations at § 679.20(a)(7)(viii) require NMFS to announce whether the AI incidental catch allowance, directed fishing allowance, CV Harvest Set-Aside, and Unrestricted Fishery, as well as the Bering Sea Trawl CV A-Season Sector Limitation will be in effect for 2019. NMFS received notification from Adak that a shoreplant will be processing AI Pacific cod in 2019. Therefore, the Pacific cod TACs in Table 9 of this inseason adjustment will be effective for 2019 and the harvest limits in Table 9B (83 FR 8365, February 27, 2018) will apply in 2019.

Steller sea lions occur in the same location as the pollock, Atka mackerel, and Pacific cod fisheries and are listed as endangered under the Endangered Species Act (ESA). Pollock, Atka mackerel, and Pacific cod are a principal prey species for Steller sea lions in the BSAI. The seasonal apportionment of pollock, Atka mackerel, and Pacific cod harvest is necessary to ensure the groundfish fisheries are not likely to cause jeopardy of extinction or adverse modification of critical habitat for Steller sea lions. NMFS published regulations and the revised harvest limit amounts for pollock, Atka mackerel, and Pacific cod fisheries to implement Steller sea lion protection measures to insure that groundfish fisheries of the BSAI are not likely to jeopardize the continued existence of the western distinct population segment of Steller sea lions or destroy or adversely modify their designated critical habitat (79 FR 70286, November 25, 2014). The regulations at § 679.20(a)(5)(i) and (ii) specify how the BS and AI pollock TAC will be apportioned. The regulations at § 679.20(a)(7) specify how the BSAI Pacific cod TAC will be apportioned. The regulations at § 679.20(a)(8) specify

how the BSAI Atka mackerel TAC will be apportioned.

In accordance with § 679.25(a)(1)(iii), (a)(2)(i)(B), and (a)(2)(iv), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that, based on the November 2018 SAFE report for this fishery, the current BSAI pollock, Atka mackerel, and Pacific cod TACs are incorrectly specified. Pursuant to § 679.25(a)(1)(iii), the Regional Administrator is adjusting the 2019 BS pollock TAC to 1,397,000 mt, the 2019 BSAI Atka mackerel TAC to 57,951 mt, the 2019 BS Pacific cod TAC to 166,475 mt, and the AI Pacific cod TAC to 14,214 mt. Therefore, Table 2 of the final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) is revised consistent with this adjustment.

Pursuant to § 679.20(a)(5)(i) and (ii), Table 5 of the final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) is revised for the 2019 BS and AI allocations of pollock TAC to the directed pollock fisheries and to the Community Development Quota (CDQ) directed fishing allowances consistent with this adjustment. For AI pollock, the Steller sea lion protection measure final rule (79 FR 70286, November 25, 2014), sets harvest limits for pollock in the A season (January 20 to June 10) in Areas 543, 542, and 541, see § 679.20(a)(5)(iii)(B)(6). In Area 541, the 2019 A season pollock harvest limit is no more than 30 percent, or 15,866 mt, of the AI ABC of 52,887 mt. In Area 542, the 2019 A season pollock harvest limit is no more than 15 percent, or 7,933 mt, of the AI ABC of 52,887 mt. In Area 543, the 2019 A season pollock harvest limit is no more than 5 percent, or 2,644 mt, of the AI pollock ABC of 52,887 mt.

TABLE 5—FINAL 2019 ALLOCATIONS OF POLLOCK TACS TO THE DIRECTED POLLOCK FISHERIES AND TO THE CDQ DIRECTED FISHING ALLOWANCES (DFA) <sup>1</sup>

542 .....	7,933	n/a	n/a	n/a
543 .....	2,644	n/a	n/a	n/a
Bogoslof District ICA <sup>8</sup> .....	500	n/a	n/a	n/a

<sup>1</sup> Pursuant to § 679.20(a)(5)(i)(A), the Bering Sea subarea pollock, after subtracting the CDQ DFA (10 percent) and the ICA (3.9 percent), is allocated as a DFA as follows: Inshore sector—50 percent, catcher/processor sector (C/P)—40 percent, and mothership sector—10 percent. In the Bering Sea subarea, 45 percent of the DFA is allocated to the A season (January 20–June 10) and 55 percent of the DFA is allocated to the B season (June 10–November 1). Pursuant to § 679.20(a)(5)(iii)(B)(2)(i) through (iii), the annual Aleutian Islands pollock TAC, after subtracting first for the CDQ DFA (10 percent) and second for the ICA (2,400 mt), is allocated to the Aleut Corporation for a pollock directed fishery. In the Aleutian Islands subarea, the A season is allocated up to 40 percent of the ABC, and the B season is allocated the remainder of the pollock directed fishery.

<sup>2</sup> In the Bering Sea subarea, pursuant to § 679.20(a)(5)(i)(C), no more than 28 percent of each sector's annual DFA may be taken from the SCA before noon, April 1.

<sup>3</sup> Pursuant to § 679.20(a)(5)(i)(A)(4), 8.5 percent of the DFA allocated to listed catcher/processors shall be available for harvest only by eligible catcher vessels delivering to listed catcher/processors.

<sup>4</sup> Pursuant to § 679.20(a)(5)(i)(A)(4)(iii), the AFA unlisted catcher/processors are limited to harvesting not more than 0.5 percent of the catcher/processors sector's allocation of pollock.

<sup>5</sup> Pursuant to § 679.20(a)(5)(i)(A)(6), NMFS establishes an excessive harvesting share limit equal to 17.5 percent of the sum of the non-CDQ pollock DFAs.

<sup>6</sup> Pursuant to § 679.20(a)(5)(i)(A)(7), NMFS establishes an excessive processing share limit equal to 30.0 percent of the sum of the non-CDQ pollock DFAs.

<sup>7</sup> Pursuant to § 679.20(a)(5)(iii)(B)(6), NMFS establishes harvest limits for pollock in the A season in Area 541 of no more than 30 percent, in Area 542 of no more than 15 percent, and in Area 543 of no more than 5 percent of the Aleutian Islands pollock ABC.

<sup>8</sup> The Bogoslof District is closed by the final harvest specifications to directed fishing for pollock. The amounts specified are for ICA only and are not apportioned by season or sector.

**Note:** Seasonal or sector apportionments may not total precisely due to rounding.

Pursuant to § 679.20(a)(8), Table 7 of the final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) is revised for the 2019 seasonal and spatial allowances, gear shares, CDQ reserve, incidental catch allowance, and Amendment 80 allocation of the BSAI Atka mackerel TAC consistent with this adjustment.

[Amounts are in metric tons]

Sector <sup>1</sup>	Season <sup>2,3,4</sup>	2019 Allocation by area		
		Eastern Aleutian District/Bering Sea <sup>5</sup>	Central Aleutian District <sup>5</sup>	Western Aleutian District <sup>5</sup>
	Critical Habitat .....	n/a	3,449	5,242

<sup>1</sup> Section 679.20(a)(8)(ii) allocates the Atka mackerel TACs, after subtracting the CDQ reserves, jig gear allocation, and ICAs, to the Amendment 80 and BSAI trawl limited access sectors. The allocation of the ITAC for Atka mackerel to the Amendment 80 and BSAI trawl limited access sectors is established in Table 33 to 50 CFR part 679 and § 679.91. The CDQ reserve is 10.7 percent of the TAC for use by CDQ participants (see §§ 679.20(b)(1)(ii)(C) and 679.31).

<sup>2</sup> Sections 679.20(a)(8)(ii)(A) and 679.22(a) establish temporal and spatial limitations for the Atka mackerel fishery.

<sup>3</sup> The seasonal allowances of Atka mackerel are 50 percent in the A season and 50 percent in the B season.

<sup>4</sup> Section 679.23(e)(3) authorizes directed fishing for Atka mackerel with trawl gear during the A season from January 20 to June 10 and the B season from June 10 to December 31.

<sup>5</sup> Section 679.20(a)(8)(ii)(C)(1)(i) limits no more than 60 percent of the annual TACs in Areas 542 and 543 to be caught inside of Steller sea lion critical habitat; section 679.20(a)(8)(ii)(C)(1)(ii) equally divides the annual TACs between the A and B seasons as defined at § 679.23(e)(3); and section 679.20(a)(8)(ii)(C)(2) requires the TAC in Area 543 shall be no more than 65 percent of ABC in Area 543.

<sup>6</sup> Section 679.20(a)(8)(i) requires that up to 2 percent of the Eastern Aleutian District and the Bering Sea subarea TAC be allocated to jig gear after subtracting the CDQ reserve and the ICA. NMFS set the amount of this allocation for 2019 at 0.5 percent. The jig gear allocation is not apportioned by season.

<sup>7</sup> The 2019 allocations for Atka mackerel between Amendment 80 cooperatives and the Amendment 80 limited access sector will not be known until eligible participants apply for participation in the program by November 1, 2018. NMFS will post 2019 Amendment 80 allocations when they become available in December 2018.

**Note:** Seasonal or sector apportionments may not total precisely due to rounding.

Pursuant to § 679.20(a)(7), Table 9 of the final 2018 and 2019 harvest specifications for groundfish in the

BSAI (83 FR 8365, February 27, 2018) is revised for the 2019 gear shares and seasonal allowances of the BSAI Pacific

cod TAC consistent with this adjustment.

				Apr 30–Aug 31 .....	452
				Aug 31–Dec 31 .....	452

<sup>1</sup> The gear shares and seasonal allowances for BSAI Pacific cod TAC are based on the sum of the BS and AI Pacific cod TACs, after the subtraction of CDQ. If the TAC for Pacific cod in either the AI or BS is reached, then directed fishing for Pacific cod in that subarea may be prohibited, even if a BSAI allowance remains.

<sup>2</sup> The ICA for the hook-and-line and pot sectors will be deducted from the aggregate portion of Pacific cod TAC allocated to the hook-and-line and pot sectors. The Regional Administrator approves an ICA of 400 mt for 2019 based on anticipated incidental catch in these fisheries.

**Note:** Seasonal or sector apportionments may not total precisely due to rounding.

TABLE 9B—2019 BSAI A-SEASON PACIFIC COD LIMITS IF ALEUTIAN ISLANDS SHOREPLANTS INTEND TO PROCESS PACIFIC COD

2019 Allocations under Aleutian Islands CV Harvest Set-Aside	Amount (mt)
AI non-CDQ TAC .....	14,214
AI ICA .....	2,500
AI DFA .....	11,714
BS non-CDQ TAC .....	148,662
BSAI Trawl CV A-Season Allocation .....	26,388
BSAI Trawl CV A-Season Allocation minus Sector Limitation <sup>1</sup> .....	21,388
BS Trawl CV A-Season Sector Limitation .....	5,000
AI CV Harvest Set-Aside <sup>2</sup> .....	5,000
AI Unrestricted Fishery <sup>3</sup> .....	6,714

<sup>1</sup> This is the amount of the BSAI trawl CV A-season allocation that may be harvested in the Bering Sea prior to March 21, 2019, unless the BS Trawl CV A-Season Sector Limitation is suspended for the remainder of the fishing year because the performance requirements pursuant to § 679.20(a)(7)(viii)(E) were not met.

<sup>2</sup> Prior to March 15, 2019, only catcher vessels that deliver their catch of AI Pacific cod to AI shoreplants for processing may directed fish for that portion of the AI Pacific cod non-CDQ DFA that is specified as the AI CV Harvest Set-Aside, unless lifted because the performance requirements pursuant to § 679.20(a)(7)(viii)(E) were not met.

<sup>3</sup> Prior to March 15, 2019, vessels otherwise authorized to directed fish for Pacific cod in the AI may directed fish for that portion of the AI Pacific cod non-CDQ DFA that is specified as the AI Unrestricted Fishery.

## Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would

allow for harvests that exceed the appropriate allocations for pollock, Atka mackerel, and Pacific cod in the BSAI based on the best scientific information available. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of December xx, 2018, and additional time for prior public comment would result in conservation concerns for the ESA-listed Steller sea lions.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of

prior notice and opportunity for public comment.

Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until January 14, 2019.

This action is required by § 679.20 and § 679.25 and is exempt from review under Executive Order 12866.
