

This draft guidance elaborates on the initial standards that FDA established in 2014. It is intended to assist trading partners in standardizing the data that are contained in the product tracing information they must provide to subsequent purchasers. It is also intended to help trading partners understand the data elements that should be included in the product tracing information, particularly in situations where they are permitted by law to provide other trading partners with product tracing information that omits certain elements that would otherwise be required. In addition, the draft guidance recommends documentation practices that trading partners can use to satisfy the requirements of section 582(b)(1), (c)(1), (d)(1), and (e)(1) of the FD&C Act.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA about standardization of data and documentation practices for the exchange of product tracing information. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

II. Paperwork Reduction Act of 1995

This draft guidance includes information collection provisions that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520). FDA intends to solicit public comment and obtain OMB approval for any information collections recommended in this guidance that are new or that would represent modifications to those previously approved collections of information found in FDA regulations or guidances.

Food and Drug Administration

[Docket No. FDA–2016–D–1255]

E18 Genomic Sampling and Management of Genomic Data; International Council for Harmonisation; Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a guidance for industry entitled “E18 Genomic Sampling and Management of Genomic Data.” The guidance was prepared under the auspices of the International Council for Harmonisation (ICH), formerly the International Conference on Harmonisation. This guidance focuses on the general principles of collecting, processing, transporting, storing, and disposing of genomic samples or data in clinical studies. The guidance is intended to provide harmonized principles of genomic sampling and of management of genomic data in clinical studies to foster interactions amongst stakeholders, including drug developers, investigators, and regulators; and to encourage genomic research within clinical studies.

DATES: The announcement of the guidance is published in the **Federal Register** on March 2, 2018.

ADDRESSES: You may submit either electronic or written comments on Agency guidances at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your

comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see “Written/Paper Submissions” and “Instructions”).

Written/Paper Submissions

Submit written/paper submissions as follows:

- **Mail/Hand delivery/Courier (for written/paper submissions):** Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in “Instructions.”

Instructions: All submissions received must include the Docket No. FDA–2016–D–1255 for “E18 Genomic Sampling and Management of Genomic Data; International Council for Harmonisation; Guidance for Industry.” Received comments will be placed in the docket and, except for those submitted as “Confidential Submissions,” publicly viewable at <https://www.regulations.gov> or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday.

- **Confidential Submissions—**To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states “THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.” The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as “confidential.” Any information marked as “confidential” will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For

more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: <https://www.gpo.gov/fdsys/pkg/FR-2015-09-18/pdf/2015-23389.pdf>.

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to <https://www.regulations.gov> and insert the docket number, found in brackets in the heading of this document, into the "Search" box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of this guidance to the Division of Drug Information, Center for Drug Evaluation and Research, Food and Drug Administration, 10001 New Hampshire Ave., Hillandale Building, 4th Floor, Silver Spring, MD 20993-0002; the Office of Communication and Education, Division of Industry and Consumer Education, Center for Devices and Radiological Health, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 66, Rm. 4621, Silver Spring, MD 20993-0002; or the Office of Communication, Outreach and Development, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 3128, Silver Spring, MD 20993-0002. Send one self-addressed adhesive label to assist that office in processing your requests. The guidance may also be obtained by mail by calling the Center for Biologics Evaluation and Research at 1-800-835-4709 or 240-402-8010. Send one self-addressed adhesive label to assist that office in processing your requests. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the guidance document.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance for industry entitled "E18 Genomic Sampling and Management of Genomic Data; International Council for Harmonisation." In recent years, regulatory authorities and industry associations from around the world have participated in many important initiatives to promote international harmonization of regulatory requirements under the ICH. FDA has participated in several ICH meetings designed to enhance harmonization and FDA is committed to seeking scientifically based harmonized technical procedures for pharmaceutical development. One of the goals of harmonization is to identify and reduce differences in technical requirements for drug development among regulatory agencies.

ICH was established to provide an opportunity for harmonization initiatives to be developed with input from both regulatory and industry representatives. FDA also seeks input from consumer representatives and others. ICH is concerned with harmonization of technical requirements for the registration of pharmaceutical products for human use among regulators around the world. The six founding members of the ICH are the European Commission; the European Federation of Pharmaceutical Industries Associations; FDA; the Japanese Ministry of Health, Labour, and Welfare; the Japanese Pharmaceutical Manufacturers Association; and the Pharmaceutical Research and Manufacturers of America. The standing members of the ICH Association include Health Canada and Swissmedic. Any party eligible as a member in accordance with the ICH Articles of Association can apply for membership in writing to the ICH Secretariat. The ICH Secretariat, which coordinates the preparation of documentation, operates as an international nonprofit organization and is funded by the members of the ICH Association.

The ICH Assembly is the overarching body of the Association and includes representatives from each of the ICH members and observers. The ICH Assembly is responsible for the endorsement of draft guidelines and adoption of final guidelines. FDA publishes ICH guidelines as FDA guidance.

In the **Federal Register** of June 3, 2016 (81 FR 35781), FDA published a notice announcing the availability of a draft guidance entitled "E18 Genomic Sampling and Management of Genomic

Data." The notice gave interested persons an opportunity to submit comments by August 2, 2016.

After consideration of the comments received and revisions to the guideline, a final draft of the guideline was submitted to the ICH Assembly and endorsed by the regulatory agencies in September 2017.

The guidance provides guidance on genomic sampling and management of genomic data from interventional and non-interventional clinical studies. The guidance addresses use of genomic samples and data irrespective of the timing of analyses and both prespecified and non-prespecified use. The focus is on the general principles of collecting, processing, transporting, storing, and disposing of genomic samples or data, within the scope of an informed consent policy or practice. The technical aspects of genomic sampling are also discussed when appropriate, recognizing the rapidly evolving technological advances in genomic sampling and data generation. The guidance also intends to increase awareness and provide a reminder regarding subjects' privacy, protection of the data generated, the need to obtain suitable informed consent, and the need to consider transparency of findings in line with local legislation and regulations.

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on "E18 Genomic Sampling and Management of Genomic Data." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

II. Paperwork Reduction Act of 1995

This guidance refers to previously approved collections of information that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). The collections of information in 21 CFR parts 312 and 314 have been approved under OMB control numbers 0910-0014 and 0910-0001, respectively. The collections of information in 21 CFR parts 50 and 56 have been approved under OMB control number 0910-0755. The collections of information in the guidance "E6(R2) Good Clinical Practice: Integrated Addendum to ICH E6(R1)" have been approved under 0910-0843.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Availability of the 2018 Physical Activity Guidelines Advisory Committee Scientific Report and Solicitation of Written Comments

AGENCY: Office of Disease Prevention and Health Promotion, Office of the Assistant Secretary for Health, Office of the Secretary, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) (a) announces the availability of the 2018 Physical Activity Guidelines Advisory Committee Scientific Report (Scientific Report); and (b) solicits written comments on the Scientific Report.

DATES: Written comments on the Scientific Report will be accepted through 11:59 p.m. ET on April 2, 2018.

ADDRESSES: The Scientific Report is available on the internet at www.health.gov/paguidelines.

FOR FURTHER INFORMATION CONTACT: Designated Federal Officer, 2018 Physical Activity Guidelines Advisory Committee, Richard D. Olson, MD, MPH and/or Alternate Designated Federal Officer, Katrina L. Piercy, Ph.D., RD, Office of Disease Prevention and Health Promotion (ODPHP), Office of the Assistant Secretary for Health (OASH), HHS; 1101 Wootton Parkway, Suite LL-100; Rockville, MD 20852; Telephone: (240) 453-8280. Email: odphpinfo@hhs.gov. Additional information is available at www.health.gov/paguidelines.

SUPPLEMENTARY INFORMATION: The inaugural *Physical Activity Guidelines for Americans* (PAG), issued in 2008,

was the first comprehensive guidelines on physical activity issued by the federal government. The PAG serves as the benchmark and primary, authoritative voice of the federal government for providing science-based guidance on physical activity, fitness, and health for Americans. The second edition of the PAG will build upon the first edition and provide a foundation for federal recommendations and education for physical activity programs for Americans, including those at risk for chronic disease.

Description of the Committee's Mission and Composition: The 2018 Physical Activity Guidelines Advisory Committee (Committee or PAGAC) was established to perform a single, time-limited task. The work of the Committee was solely advisory in nature. It was charged to examine the current PAG, take into consideration new scientific evidence and current resource documents, and develop a scientific report to the Secretary of HHS that outlines its science-based advice and recommendations for development of the second edition of the PAG. The Committee consisted of 17 members, who were appointed by the Secretary in June 2016. The Committee disbanded upon submission of its Scientific Report to the Secretary of HHS. Information on the Committee membership is available at www.health.gov/paguidelines/second-edition/committee/.

Written Public Comments: Written comments on the Scientific Report are encouraged from the public and will be accepted through April 2, 2018. Written public comments can be submitted and/or viewed at www.health.gov/paguidelines/pcd using the "Submit Comments" and "Read Comments" links, respectively. HHS requests that commenters provide a brief summary of the points or issues in the comment text box. If commenters are providing literature or other resources, complete citations or abstracts and electronic links to full articles or reports are preferred instead of attaching these documents to the comment. The Department does not make decisions on specific policy recommendations based on the number of comments for or against a topic, but on the scientific justification for the recommendation. All comments must be received by 11:59 p.m. ET on April 2, 2018, after which the time period for submitting written comments to the federal government expires. After submission, comments will be reviewed, processed, and then posted for public viewing.

Dated: February 21, 2018.

Don Wright,

Deputy Assistant Secretary for Health, Office of Disease Prevention and Health Promotion.
