

Application under section 3(a) of the Natural Gas Act (NGA), 15 U.S.C. 717b(a). Additional details can be found in Annova's Application and supplement to the Application, posted on the DOE/FE website at: <https://www.energy.gov/fe/annova-lng-common-infrastructure-llc-annova-19-34-lng-long-term-nftans>.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DOE/FE Evaluation

In reviewing Annova's Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the study entitled, *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports* (2018 LNG Export Study),¹ and DOE/FE's response to public comments received on that Study.²

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);³ and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas from the United States*, 79 FR 32260 (June 4, 2014).⁴

Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No
