

startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS. This information is being collected to assure compliance with 40 CFR part 60, subpart IIII.

Form Numbers: None.

Respondents/affected entities: Manufacturers, owners and operators of new stationary compression ignition (CI) internal combustion engines (ICE).

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart IIII).

Estimated number of respondents: 206,885 (total).

Frequency of response: Initially and annually.

Total estimated burden: 408,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$46,700,000 (per year), includes \$167,000 for annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no significant increase in the burden hours in this ICR compared to the previous ICR. This because the regulations have not changed significantly over the past three years and are not anticipated to change over the next three years. The increase in labor costs from the most-recently approved ICR is due to adjustment in labor rates. We also updated the number of respondents to reflect new respondents since the approval of the prior ICR. There was no change in the capital or O&M costs. There is a small increase in the number of responses based on the adjustments to the number of respondents.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Foreign Purchaser Acknowledgement Statement of Unregistered Pesticides (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted the

following information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA): Foreign Purchaser Acknowledgement Statement of Unregistered Pesticides and identified by EPA ICR No. 0161.14 and OMB Control No. 2070-0027. This is a request to renew the approval of an existing ICR. The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized in this document. EPA did not receive any comments in response to the previously provided public review opportunity issued in the **Federal Register** on July 25, 2018. With this submission, EPA is providing an additional 30 days for public review and comment.

DATES: Comments must be received on or before April 25, 2019.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2018-0266 and OMB Control No. 2070-0027, to: (1) EPA online using <http://www.regulations.gov> (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Docket: Supporting documents, including the ICR that explains in detail the information collection activities and the related burden and cost estimates that are summarized in this document, are available in the docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, West William

Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

ICR status: This ICR is currently scheduled to expire on March 31, 2019. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number.

Abstract: This ICR addresses the information collection activities associated with the statutory mandate requiring EPA to provide notice to foreign purchasers of unregistered pesticides exported from the United States that the pesticide product cannot be sold in the United States. Section 17(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires an exporter of any pesticide not registered under FIFRA section 3 or sold under FIFRA section 6(a)(1) to obtain a signed statement from the foreign purchaser acknowledging that the purchaser is aware that the pesticide is not registered for use in, and cannot be sold in, the United States. A copy of this statement; which is known as the Foreign Purchaser Acknowledgement Statement, or FPAS, must be transmitted to the Designated National Authority or appropriate official of the government in the importing country. This information is submitted in the form of annual or per-shipment statements to the EPA, which maintains original records and transmits copies, along with an explanatory letter to appropriate government officials of the countries that are importing the pesticide. In addition to the export notification for unregistered pesticides, FIFRA requires that all exported pesticides include appropriate labeling. There are different requirements for registered and unregistered products. Export labeling requirements meet the definition of third-party notification. In the interests of consolidating various related information collection requests, this ICR includes the burden estimates for the FPAS requirement for unregistered pesticides, as well as the labeling requirement for all exported pesticides, both registered and unregistered.

Respondents/Affected Entities: Individuals or entities that either manufacture and export pesticides or that reformulate or repackage and export

pesticides. The North American Industrial Classification System (NAICS) code assigned to the parties responding to this information is 3250A1.

Respondent's obligation to respond: Mandatory.

Estimated total number of potential respondents: 2,240 annually.

Frequency of response: On occasion.

Estimated total burden: 16,660 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$1,087,102. This is the estimated burden cost, which includes no capital investment or maintenance and operational costs.

Changes in the estimates: There is a decrease of 1,333 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects a reduction in the annual number of foreign purchaser acknowledgment statements received by EPA (from 3,024 to 2,774), which resulted in a corresponding decrease in the estimated annual burden hours for respondents (from 3,205 to 2,940 hours); and a reduction in the estimated annual burden associated with labeling requirements. The respondent burden associated with labeling requirements for unregistered exported pesticides decreased from 4,888 to 4,480 hours; and from 9,900 to 9,240 hours associated with labeling requirements for registered exported pesticides. The decrease in burden associated with labeling requirements is due to a reduction in the number of respondents per calendar years 2015–2017. Total labor costs for respondents decreased due to a decrease in the estimated number of respondents per calendar year from 2015–2017 and an update to the wage rate estimates, which incorporated higher estimates for benefits than was used in the previous renewal. These changes qualify as adjustments.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for New Residential Hydronic Heaters and Forced-Air Furnaces (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for New Residential Hydronic Heaters and Forced-Air Furnaces (EPA ICR No. 2442.03, OMB Control No. 2060–0693), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested, via the **Federal Register**, on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 25, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2018–0250, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to doctet.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The New Source Performance Standards (NSPS) for New Residential Hydronic Heaters and Forced-Air Furnaces (40 CFR part 60, subpart QQQQ) to new residential hydronic heaters, forced-air furnaces, or other central heaters manufactured either on or after May 15, 2015 and sold or distributed in the United States. The residential hydronic heater and forced-air furnace NSPS establishes a certification program, instead of the usual NSPS requirement that each affected facility demonstrate compliance with emission limits through performance testing. Under this certification program, a single heating appliance is tested to demonstrate compliance with particulate matter (PM) emission limits for an entire model line which could consist of thousands of stoves. The use of a certification approach significantly reduces the compliance burden, including information collection, for the manufacturers of hydronic heaters and forced-air furnaces. Each manufacturer subject to Subpart QQQQ is required to keep records of all documentation pertaining to the certification testing for each model line, the results of the quality assurance program inspections, and a sealed sample of each heater or furnace upon which certification tests were performed and certification granted. Each approved test laboratory and third-party certifier must maintain records consisting of all documentation pertaining to each certification test, quality assurance program inspection and audit test. Manufacturers must also submit the test reports and other documentation to EPA when they apply for a certificate of compliance for each model line. These reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS. This information is being collected to assure compliance with 40 CFR part 60, subpart QQQQ.

Form Numbers: None.

Respondents/affected entities: New residential hydronic heaters, forced-air furnaces, or other central heaters manufactured either on or after May 15, 2015 and sold or distributed in the United States. These regulations also apply to EPA-approved testing laboratories and EPA-approved third-party certifiers.

Respondent's obligation to respond: Mandatory (40 CFR 60 Subpart QQQQ).
