DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2019-0002]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sacbabit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbabit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Associate Administrator for Insurance and Mitigation has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at

selected locations in each community are shown.

National Environmental Policy Act. FEMA included flood hazard mapping data dissemination determinations as part of the NFIP Nationwide Programmatic Environmental Impact Statement, published on November 3, 2017, and completed in accordance with the Council on Environmental Quality's National Environmental Policy Act implementing regulations in 40 CFR 1500-1508 and therefore has determined that this action will not have a significant effect on the human environment.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

On July 13, 2018, the Federal Communications Commission

("Commission") released an Order titled, "In the Matter of Expanding Flexible Use of the 3.7 to 4.2 GHz Band; Expanding Flexible Use in Mid-Band Spectrum Between 3.7 and 24 GHz; Petition for Rulemaking to Amend and Modernize Parts 25 and 101 of the Commission's Rules to Authorize and Facilitate the Deployment of Licensed Point-to-Multipoint Fixed Wireless Broadband Service in the 3.7-4.2 GHz Band; Fixed Wireless Communications Coalition, Inc., Request for Modified Coordination Procedures in Band Shared Between the Fixed Service and the Fixed Satellite Service," GN Docket No. 18-122, GN Docket No. 17-183, RM-11791, RM-11778 (FCC 18-91). The Order has been published in the **Federal Register**. 83 FR 42043 (Aug. 20, 2018).

In this proceeding, the Commission seeks to identify potential opportunities for additional terrestrial use for wireless broadband services of 500 megahertz of mid-band spectrum between 3.7-4.2 GHz. In response to concerns that the Commission's information regarding current use of the band is inaccurate and/or incomplete, the Commission adopted an Order requesting additional information from operators in the fixed-satellite service (FSS). Specifically, for FSS operators in the 3.7-4.2 GHz band, the Order (1) requests additional information on the operations of temporary-fixed earth station licensees, and (2) requests additional information on the operations of space stations. This information collection will provide the Commission and the public with additional information about existing FSS operators that will be used to consider potential new terrestrial services in the 3.7-4.2 GHz band while protecting the interests of those FSS operators. The Order also requires certain earth station operators to file certifications that information on file with the Commission remains accurate.

Federal Communications Commission.

Cecilia Sigmund,

Federal Register Liaison.
