Foreign-Trade Zones Board

[B-29-2019]

Foreign-Trade Zone (FTZ) 18—San Jose, California; Notification of Proposed Production Activity; Lam Research Corporation (Wafer Fabrication Equipment, Subassemblies and Related Parts), Fremont, Livermore and Newark, California

Lam Research Corporation (Lam) submitted a notification of proposed production activity to the FTZ Board for its facilities in Fremont, Livermore and Newark, California. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on April 25, 2019.

Lam already has authority to produce wafer manufacturing equipment within Subzone 18F. The current request would add a finished product and foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished product described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Lam from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, Lam would be able to choose the duty rates during customs entry procedures that apply to parts and assemblies of semiconductor manufacturing equipment (duty-free). Lam would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Diluted hydrogen gas; freon gas; ammonia hydroxide solutions; potassium phosphate buffer solutions; sodium bicarbonate buffer solutions; hydrogen peroxide; antifoam emulsions; calcium glucomate; caulking compounds; polyvinyl chloride cements; mineral oils; teflon greases and similar synthetic oils; thermal joint compounds; petroleum-based greases and similar lubricants; scouring pastes and powders; retail-sale sealants, glues and pastes; polymer-based adhesives; industrial sealants, glues and pastes; carrier films; toner cartridges; organic solvents; sealants with activators; silicon or germanium wafers and partial wafers; PH buffer solutions and litmus papers; fluorine-based coolants; fluorinated and other polyether-based lubricants; epoxy resins; silicone cements and fillers; polyethylene tubes, pipes and hoses; polypropylene tubing; polyvinyl chloride tubing; plastic tubing; flexible plastic tubes, pipes and hoses; flexible plastic tubing with and without fittings; plastic tube fittings; electrical tapes; foam tapes; reflective tapes; scotch tapes, packing tapes and similar tapes; plastic labels; plastic panels, plates and structural components; polymer plastic signs and plates; plastic cutting sheets; polycarbonate windows; plastic shims and spacers; polyester-plastic shims; teflon wraps and pads; foam-block silicon adhesives; protection and insulation pads and wipes of polyurethane plastics; plastic film sheets and foam strips; plastic templates; flexible plastic panels, plates and structural components; rigid plastic panels, plates and structural components; plastic boxes and crates; polyethylene bags and packing materials; other plastic bags and packaging materials; polypropylene and fluoropolymer-plastic reservoirs and tanks; plastic caps; plastic packing
