OFFICE OF PERSONNEL MANAGEMENT

Submission for Renewal of a Previously Approved Information Collection: Questionnaire for National Security Positions, Standard Form 86 (SF 86)

AGENCY: Office of Personnel
Management.

ACTION: 60-Day notice and request for
comments.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, the
National Background Investigations
Bureau (NBIB), Office of Personnel
Management (OPM) proposes to request
the Office of Management and Budget
(OMB) to renew a previously-approved
information collection, Questionnaire
for National Security Positions,
Standard Form 86 (SF 86).

DATES: Comments are encouraged and
will be accepted until August 12, 2019.

ADDRESS: You may submit comments,
identified by docket number and title,
by the following method:

Federal Rulemaking Portal: <http://www.regulations.gov>. Follow the
instructions for submitting comments.

All submissions received must
include the agency name and docket
number for this document. The general
policy for comments and other
submissions from members of the public
is to make these submissions available
for public viewing at <http://www.regulations.gov> as they are
received without change, including any
personal identifiers or contact
information.

FOR FURTHER INFORMATION CONTACT: A
copy of this ICR, with applicable
supporting documentation, may be
obtained by contacting the National
Background Investigations Bureau, U.S.
Office of Personnel Management, 1900 E
Street NW, Washington, DC 20415,
Attention: Donna McLeod or sent by
email to FISFormsComments@opm.gov.

SUPPLEMENTARY INFORMATION: OPM is
soliciting comments for this collection
as required by the Paperwork Reduction
Act of 1995, 44 U.S.C. 3506(c)(2). The
Office of Management and Budget is
particularly interested in comments that:

1. Evaluate whether the proposed
collection of information is necessary
for the proper performance of the
functions of the agency, including
whether the information will have
practical utility;

2. Evaluate the accuracy of the
agency's estimate of the burden of the
proposed collection of information,
including the validity of the
methodology and assumptions used;

3. Enhance the quality, utility, and
clarity of the information to be
collected; and

4. Minimize the burden of the
collection of information on those who
are to respond, including through the
use of appropriate automated,
electronic, mechanical, or other
technological collection techniques or
other forms of information technology,
e.g., permitting electronic submissions
of responses.

The Questionnaire for National
Security Positions, Standard Form 86
(SF 86) is completed by civilian
employees of the Federal Government,
military personnel, and non-federal
employees, including general
contractors and individuals otherwise
not directly employed by the Federal
Government but who perform work for
or on behalf of the Federal Government.
For applicants for civilian Federal
employment, the SF 86 is to be used
only after a conditional offer of
employment has been made. The
Electronic Questionnaires for
Investigations Processing (e-QIP) is a
web-based system application that
houses the SF 86. A variable in
assessing burden hours is the nature of
the electronic application. The
electronic application includes
branching questions and instructions
which provide for a tailored collection
from the respondent based on varying
factors in the respondent's personal
history. The burden on the respondent
is reduced when the respondent's
personal history is not relevant to
particular question, since the question
branches, or expands for additional
details, only for those persons who have

pertinent information to provide regarding that line of questioning. Accordingly, the burden on the respondent will vary depending on whether the information collection relates to the respondent's personal history.

OPM recommends renewal of the form without any proposed changes at this time. This recommendation is due to the current development of a new policy framework associated with Security, Suitability, and Credentialing missions, through the Performance Accountability Council led Trusted Workforce 2.0 effort. OPM will consider any potential modifications as the work nears completion with this effort. Ongoing assessments will occur to ensure the SF 86 reflects and collects pertinent information for the revised investigative process and aligns with governing policies, rules, and regulations requiring use of this form.
