Glycine From China, India, and Japan; Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of glycine (provided for in subheadings 2922.49.43 and 2922.49.80 of the Harmonized Tariff Schedule of the United States) from India and Japan that the U.S. Department of Commerce (“Commerce”) has determined are sold in the United States at less than fair value (“LTFV”) and imports of glycine that Commerce has determined are subsidized by the governments of China and India.

Background

The Commission, pursuant to sections 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)), instituted these investigations effective March 28, 2018, following receipt of petitions filed with the Commission and Commerce by Chatter Chemicals Inc., Chattanooga, Tennessee, and GEO Specialty Chemicals, Inc., Lafayette, Indiana. The final phase of the

investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of glycine from China and India were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and imports of glycine from India and Japan were being sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on December 3, 2018 (83 FR 62345). A revised notice of the scheduling of the final phase of the Commission’s investigations was published on February 12, 2019 (84 FR 3486). The hearing was held in Washington, DC, on April 30, 2019, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on June 14, 2019. The views of the Commission are contained in USITC Publication 4900 (June 2019) entitled *Glycine from China, India, and Japan: Investigation Nos. 701–TA–603–604 and 731–TA–1413–1414 (Final)*.

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that if the Commission finds a violation it shall exclude the articles concerned from the United States unless, after considering the effect of such exclusion upon the public health and welfare, competition conditions in the United States economy, the production of like or directly competitive articles in the United States consumers, it finds that such articles should not be excluded from entry. 19 U.S.C. 1337(d)(1). A similar provision applies to cease and desist orders. 19 U.S.C. 1337(f)(1).

The Commission is soliciting comments on public interest issues raised by the recommended relief. The ALJ recommended, should the Commission find a violation, that the Commission issue a limited exclusion order directed against certain gas spring nailer products and components thereof imported, sold for importation, and/or sold after importation by respondent Hitachi Koki U.S.A., Ltd. ("Hitachi") of Braselton, Georgia, and a cease and desist order directed against Hitachi.

Accordingly, parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4). In addition, members of the public are invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the administrative law judge's

Recommended Determination on Remedy and Bond issued in this investigation on June 7, 2019. Comments should address whether issuance of remedial orders in this investigation would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

- (i) Explain how the articles potentially subject to the recommended orders are used in the United States;
- (ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended orders;
- (iii) indicate the extent to which like or directly competitive articles are produced in the United States or are otherwise available in the United States, with respect to the articles potentially subject to the recommended orders;
- (iv) indicate whether Complainant, Complainant's licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the recommended orders within a commercially reasonable time; and
- (v) explain how the recommended orders would impact consumers in the United States.

Written submissions must be filed by the close of business on Tuesday, July 2, 2019.

Persons filing written submissions must file the original document electronically on or before the deadline stated above and submit eight true paper copies to the Office of the Secretary pursuant to Commission Rule 210.4(f), CFR part 210.4(f).
