Changes to Agency Records Schedule; Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of consolidated reply to comments on records schedule DAA-0567-2015-0013 (DHS-ICE-Detainee Records), and request for comments.

SUMMARY: We are publishing a consolidated reply to public comments submitted on a previously open proposed records schedule. On July 14, 2017, NARA published notice in the *Federal Register* of proposed records schedule DAA-0567-2015-0013. The Department of Homeland Security, Immigration and Customs Enforcement (ICE), Detainee Records submitted this proposed schedule for "records related to detainees, including incidents of

sexual abuse and assault, escapes, deaths while in agency custody, telephone rates charged to detainees, alternatives to detention, logs and reports on status of detainees and detention facilities, and location and segregation of detainees." We received comments on this records schedule and are providing a consolidated reply on those comments on *regulations.gov* at docket NARA-19-0007. We are also inviting public comment on the reply.

DATES: Submit any comments in writing no later than August 5, 2019. We will not consider late comments.

ADDRESSES: You can find and read the consolidated reply on *regulations.gov* under docket number NARA-19-0007. You may submit comments by either of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>, docket number NARA-19-0007.

Mail: Records Appraisal and Agency Assistance (ACR); National Archives and Records Administration; 8601 Adelphi Road, College Park, MD 20740-6001. You must cite the control number DAA-0567-2015-0013 in your comment.

SUPPLEMENTARY INFORMATION: We have revised this proposed records schedule based on public comments and discussions with the agency proposing the schedule. We are now inviting follow-on public comments on the appropriateness of the disposition instructions and retention periods for the items that remain on the revised schedule.

Your written comments on this proposed records schedule should be specific, should be confined to issues pertinent to the records schedule, and should explain your reason(s) for any change you recommend to the schedule. Where possible, you should reference the specific item you are addressing. We will accept only comments submitted through www.regulations.gov or mail and will not consider comments filed after the deadline.

We will post another consolidated reply to all comments we receive during this comment period, which will be posted to the same docket on *regulations.gov*.

We will post comments, including any personal information and

attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we will post on *regulations.gov* a second consolidated reply, summarizing the comments, responding to them, and noting any changes we have made to the proposed records schedule. We will then send the schedule for final approval by the Archivist of the United States.

You may elect at *regulations.gov* to receive updates on the docket, including an alert when we post the second consolidated reply, whether or not you submit a comment. You may request additional information about the disposition process through the contact information listed above.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a revision to an existing guide in the NRC's “Regulatory Guide” series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff needs in its review of applications for permits and licenses.

Revision 2 of RG 4.13 was issued with a temporary identification of Draft Regulatory Guide, DG–4019, to provide updated guidance that the NRC staff considers acceptable for performing surveys and evaluations of public dose in the unrestricted area and the controlled area of a licensed facility from direct radiation using environmental dosimetry.

This revision also provides updated NRC guidance on an acceptable dosimetry program by endorsing ANSI/HPS N13.37–2014. The 2014 ANSI/HPS standard provides up-to-date environmental dosimetry system design criteria and dosimeter laboratory test protocols and data-analysis methods suitable to assess potential facility-related radiation doses.

II. Additional Information

The NRC published a notice of the availability of DG–4019 in the **Federal Register** on October 17, 2018 (83 FR 52576) for a 60-day public comment period. The public comment period closed on December 17, 2018. Public comments on DG–4019 and the staff responses to the public comments are available under ADAMS under Accession No. ML19044A594.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting and Issue Finality

This RG provides guidance on establishing and conducting an environmental dosimetry program that the NRC staff considers acceptable for
