Title: FERC-555 (Preservation of Records for Public Utilities and Licensees, Natural Gas and Oil Pipeline Companies).

OMB Control No.: 1902-0098.

Abstract: The Commission collects the information under the requirements of FERC-555 (Records Retention Requirements) to carry out its responsibilities in implementing the statutory provisions of Sections 301, 304 and 309 of the Federal Power Act (FPA),¹ Sections 8, 10 and 16 of the Natural Gas Act (NGA),² and Section 20 of the Interstate Commerce Act (ICA).³

The regulations for preservation of records establish retention periods, necessary guidelines, and requirements for retention of applicable records. These requirements apply to the regulated public utilities, natural gas and oil pipeline companies subject to the Commission's jurisdiction. Regulated entities use these records as the basis for required rate filings and reports to the Commission. Additionally, the Commission's audit staff will use the records during compliance reviews. The Commission's enforcement staff will also use the information during investigations. Finally, the Commission will use the records for special analyses when necessary.

On January 8, 1999 the Commission issued AI99-2-000, an Accounting Issuance providing guidance on records storage media. More specifically, the Commission gave each jurisdictional company the flexibility to select its own storage media. The storage media selected must have a life expectancy equal to the applicable record period
