SUPPLEMENTARY INFORMATION:

Title: Veterinary Medical Loan Repayment Program (VMLRP).

OMB Number: 0524-0050.

Type of Request: Intent to request approval to renew an information collection and record keeping requirement for three years.

Abstract: In January 2003, the National Veterinary Medical Service Act (NVMSA) was passed into law adding section 1415A to the National Agricultural Research, Extension, and Teaching Policy Act of 1997. This law established a new Veterinary Medicine Loan Repayment Program (VMLRP) (7 U.S.C. 3151a) authorizing the Secretary

of Agriculture to carry out a program of entering into agreements with veterinarians under which they agree to provide veterinary services in veterinarian shortage situations. The purpose of the program is to assure an adequate supply of trained food animal veterinarians in shortage situations and provide USDA with a pool of veterinary specialists to assist in the control and eradication of animal disease outbreaks.

In 2016, the VMLRP Program Office proposed and received approval for a

record keeping requirement for VMLRP participants and to collect additional information from current participants, their employers and past participants. The records maintained and the information collected allow for better oversight and assessment of the program. Additionally, to streamline OMB approval processes all previously approved VMLRP information collections (OMB Control Number 0524-0046 and 0524-0047) were combined into a single package along

with the new information proposed. Each new requirement is described in detail below.

In 2019, the VMLRP Program is requesting renewal of this record keeping and information collection requirement. All documents will remain unchanged.

Total Estimate of Burden: The estimated annual reporting burden for all VMLRP collection is as follows:

Type of respondents	Number of respondents	Estimated number of responses per respondent	Average burden hours per response	Annual burden hours requested

Comments: Comments are invited on: (a) Whether the proposed record keeping requirement and collection of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of collecting the information on respondents, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.
