SUPPLEMENTARY INFORMATION:

Title: Certificates of Medical Examination.

OMB Control Number: 0583-0167.

Expiration Date: 1/31/2022.

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA)

(21 U.S.C. 451, *et seq.*) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting revision of the approved information collection regarding certificates of medical examination, by adding two new medical examination forms to the collection. The Agency has increased the burden estimate by 59 hours due to the addition of these forms for completion by health care providers. FSIS employees will ask their health care providers to complete FSIS Form 4306-5, "Medical Documentation for Employee's Reasonable Accommodation Request," if they apply for a reasonable accommodation, and FSIS Form 4630-8, "Confidential Medical Information," if they apply for the FSIS Leave Bank Program. The approval for this information collection will expire on January 31, 2022.

The current information collection approval includes FSIS Form 4339-1, "Certificate of Medical Examination (with Medical History)." FSIS uses this form to determine whether an applicant for a Food Inspector, Consumer Safety Inspector, or Veterinary Medical Officer in-plant position meets the medical qualification standards for the position approved by the Office of Personnel Management (OPM). The certificates of medical examination ensure accurate collection of the required data. The OPM-approved medical qualification standards apply only to positions in FSIS, not positions in other Federal agencies.

When requesting that applicants for the positions listed above undergo the medical examination, a representative of FSIS notifies the applicants in writing of the reasons for the examination, the process, and the consequences of the failure to report for an examination or provide medical documentation. Any physical condition that would hinder an individual's full, efficient, and safe performance of his or her duties is considered disqualifying for employment, except when the individual presents convincing evidence that he or she can perform the essential functions of the job efficiently and without hazard.

In addition to the FSIS Form 4339-1, FSIS is adding two new medical examination forms for completion by health care providers to the information collection. First, FSIS will use the FSIS Form 4306-5, "Medical Documentation for Employee's Reasonable

Accommodation Request,” to help determine whether the Agency will provide reasonable accommodation to qualified individuals. In accordance with the Rehabilitation Act of 1973 and the Americans with Disabilities Act Amendments Act of 2008, FSIS will make reasonable accommodations for the known physical or mental limitations of qualified individuals with disabilities, unless the accommodation would impose an undue hardship on the operation of FSIS. FSIS will require medical information from a health care provider to determine whether the person’s condition rises to the level of disability under the law and to determine whether the limitations can be effectively accommodated.

Second, FSIS will use FSIS Form 4630–8 “Confidential Medical Information,” to assist employees who qualify as leave recipients under the FSIS Leave Bank Program (LBP), which FSIS intends to establish in accordance with 5 CFR 630, subpart J. To qualify, employees who have exhausted their paid leave (annual and sick) would need to meet the criteria for a financial hardship due to a personal or family medical emergency. Employees would also need to provide written certification from a physician describing the medical emergency and its severity, the anticipated duration of the medical emergency, and the approximate frequency of the medical emergency (if recurring). The documentation from the physician would include the name and address of the practice and requires the doctor’s signature. For long-term and extended absences, medical documentation needs to be updated every 120 days until the medical emergency concludes.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take each respondent an average of 90 minutes to complete the FSIS Form 4339–1, 10 minutes to complete the FSIS Form 4306–5, and 15 minutes to complete the FSIS Form 4630–8.

Respondents: Health Care Providers.

Estimated Total Number of Annual Respondents: 800 respondents.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 809 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065,

South Building, Washington, DC 20250–3700; (202) 720–5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS’s functions, including whether the information will have practical utility; (b) the accuracy of FSIS’s estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to this **Federal Register** publication through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.
