

had considered eliminating the quarterly reporting requirement, citing the same FFIEC report to Congress. Second, the commenter recommended that the OCC limit the regulation's applicability to legally binding, written contracts, rather than applying it to agreements that reflect a mutual understanding and some oral communications. The commenter argued that the existing approach increases burden and obstructs activity in low- and moderate-income communities.

The OCC appreciates the information provided by the commenter. However, to the extent the commenter disagrees with the scope or requirements of section 48 or the OCC's implementing regulation, the OCC cannot repeal the statute, nor can it revise the regulation through the PRA renewal process.

Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Title: Margin and Capital Requirements for Covered Swap Entities.

OMB Control No.: 1557-0251.

Description: On March 19, 2019,² the OCC, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Farm Credit Administration, and the Federal Housing Finance Agency

¹ On March 29, 2019, the OCC published a 60-day notice for this information collection, 84 FR 12031.

(agencies) issued an interim final rule amending the agencies' regulations that require swap dealers and security based swap dealers (Swap Margin Rule) under the agencies' respective jurisdictions to exchange margin with their counterparties for swaps that are not centrally cleared. Swaps entered into before the effective dates of the Swap Margin Rule are grandfathered by the Swap Margin Rule until they expire according to their terms. There are currently financial services firms in the United Kingdom (U.K.) that conduct swap dealing activities subject to the Swap Margin Rule. If the U.K. withdraws from the European Union (E.U.) without a negotiated agreement between the U.K. and E.U., entities located in the U.K. may not be authorized to provide full-scope financial services to swap counterparties located in the E.U. The agencies are addressing a scenario whereby entities located in the U.K. might transfer their existing swap portfolios that face counterparties located in the E.U. over to an affiliate or other related establishment located within the E.U. or the United States (U.S.). These transfers, if carried out in accordance with the conditions of the interim final rule, will not trigger the application of the Swap Margin Rule to grandfathered swaps that were entered into before the Swap Margin Rule's compliance dates.

The interim final rule distinguishes transfers initiated by the financial entity standing as the covered swap entity at the completion of the transaction from a transfer initiated by the covered swap entity's counterparty. In the case of transfers initiated by the covered swap entity's counterparty, the counterparty must make a representation to the covered swap entity that the counterparty carried out the swap in accordance with both elements of the purpose test.³ Twelve CFR 45.1(h) specifies that transfers of legacy swaps initiated by a covered swap entity's

counterparty require a representation to the covered swap entity that the counterparty carried out the swap in accordance with both elements of the purpose test in order to remain outside the scope of the Swap Margin. This requirement constitutes a third party disclosure under the PRA.

Estimated Number of Respondents: 10.

Estimated Burden per Response: 1 hour.

Total Estimated Burden: 10 hours.

Type of Review: Regular.

Affected Public: Individuals; Businesses or other for-profit.

Frequency of Response: On occasion. Comments submitted in response to this notice will be summarized, included in the request for OMB approval, and become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

³ The purpose test requires that the financial entity located in the U.K. arrange to make the amendments to the non-cleared swap solely for the purpose of transferring the non-cleared swap to an affiliate or other related establishment that is located in an E.U. Member State or the United States. This purpose test also contains a requirement that the transfer be made in connection with the U.K. entity's planning for the possibility that the U.K. might exit the E.U. without a negotiated agreement, or the U.K. entity's response to such an event.
