

intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.” The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’ . . .”⁵ Regardless, the Exchange notes that the proposed change to the EDGX-related routing fee is merely meant to pass through the rebate associated with executing orders on that market, and is therefore not designed to have any significant impact on competition. Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁶ and paragraph (f) of Rule 19b-4⁷ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of

the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-CboeBYX-2019-011 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-CboeBYX-2019-011. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-CboeBYX-2019-011 and

should be submitted on or before August 2, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁸

Dated: July 8, 2019.

Abstract of Proposed Collection

The U.S. Passport Renewal Application for Eligible Individuals (Form DS-82) is used by eligible citizens and non-citizen nationals (hereinafter, collectively referred to as "nationals") of the United States who need to renew their current or recently-expired U.S. passport (a travel document attesting to one's identity and U.S. nationality).

Methodology

Passport Services collects information from U.S. citizens and non-citizen nationals when they complete and submit the DS-82, "U.S. Passport Renewal Application for Eligible Individuals." Passport applicants can either download the DS-82 from the internet or obtain the form from an Acceptance Facility/Passport Agency. The form must be completed, signed, and be submitted by mail (or in person at Passport Agencies domestically or embassies/consulates overseas).

Rachel M. Arndt,

Deputy Assistant Secretary for Passport Services.

SUPPLEMENTARY INFORMATION:

Title: Crash Report Sampling System (CRSS) Information Collection.

OMB Control Number: 2127-0714.

Type of Request: Modification of a currently approved collection of information.

Type of Review: Regular.

Abstract: Under both the Highway Safety Act of 1966 and the National Traffic and Motor Vehicle Safety Act of 1966 (Pub. L. 89-563, Title 1, Sec. 106, 108, and 112) the National Highway Traffic Safety Administration (NHTSA) has the responsibility to collect crash data that support the establishment and enforcement of motor vehicle regulations and highway safety programs. These regulations and programs are developed to reduce fatalities and the property damage associated with motor vehicle crashes. NHTSA's National Center for Statistics and Analysis (NCSA) maintains a multidisciplinary approach to meet our users' data needs utilizing an efficient combination of census, sample-based, investigation, and existing State files to provide timely information on traffic crashes. The Crash Report Sampling System (CRSS) provides sample-based data on fatal, serious injury, and property-damage-only (PDO) crashes that helps users understand highway safety problem areas, develop countermeasures, and identify general data trends.

CRSS obtains data from a nationally representative probability sample selected from police-reported motor vehicle traffic crashes. Specifically, the CRSS data set includes crashes involving at least one motor vehicle in transport on a trafficway that result in property damage, injury, or a fatality. The crash reports sampled are chosen from selected areas that reflect the geography, population, miles driven, and the number of crashes in the United States. No additional data beyond the selected crash reports is collected. Additionally, the CRSS program neither collects nor publishes any personally identifiable information. Once the crash reports are received they are coded and the data is entered into the CRSS database.

CRSS acquires national information on fatalities, injuries, and property damage directly from existing State police crash reports. The user population includes Federal and State agencies, automobile manufacturers, insurance companies, and the private sector.

Affected Public: Local Police Jurisdictions and State Crash Database Owners.

Estimated Number of Respondents: 320 Respondents.

Respondents include a combination of State agencies that maintain crash data report databases and local police jurisdictions that investigate crashes and complete the crash reports.

Frequency: Ongoing.
