**Consultation**

A detailed assessment of the human remains was made by the University of Louisville professional staff in consultation with representatives of the Cherokee Nation; Eastern Band of Cherokee Indians; The Chickasaw Nation; and the United Keetoowah Band of Cherokee Indians in Oklahoma.

**History and Description of the Remains**

In 1969, 1971, and 1972, human remains representing, at minimum, 16 individuals were removed from the Lawrence Site 15Tr33 in Trigg County, KY. The burial in Feature 7 (MNI = 1) is also named Burial #1. It was transferred to Florida Atlantic University (FAU) for osteological analysis between 1972 and 1973, and returned to University of Louisville (UofL) in March 2018. No known individuals were identified. No associated funerary objects are present.

The burial in Feature 45 (MNI = 1) is also named Burial #2. It was transferred to FAU between 1972 and 1973, and returned to UofL in March 2018. No known individuals were identified. No associated funerary objects are present.

The burial in Feature 47 (MNI = 1) is also named the Burial #3. It was transferred to FAU between 1972 and 1973, and returned in March 2018. No known individuals were identified. No associated funerary objects are present.

The burial in Feature 52 (MNI = 1) is also named Burial #5. Burial #5 remained at UofL after excavation. No known individuals were identified. The one associated funerary object is one lot of charcoal.

The burials in Feature 65 (MNI = 2) are also named Burial #6A and #6B.

Both Burials #6A and #6B were transferred to FAU between 1972 and 1973, and returned to UofL in March 2018. Burial #6A includes one adult and Burial #6B includes one sub-adult. No known individuals were identified. No associated funerary objects are present.

The burial in Feature 67 (MNI = 1) is also named Burial #8. It was transferred to FAU between 1972 and 1973, and returned to UofL in March 2018. No known individuals were identified. The one associated funerary object is one lot of charcoal.

The burial in Feature 41 (MNI = 1) is also named Burial #7. It was transferred to FAU between 1972 and 1973, and

returned to UofL in March 2018. No known individuals were identified. The one associated funerary object is one lot of lithics.

The burials in Feature 72 (MNI = 2) are also named Burial #9A and #9B. Burial #9A remained at UofL after excavation. Burial #9B remained at UofL after excavation except for some small fragments that were sent to FAU between 1972 and 1973, and returned to UofL in March 2018. No known individuals were identified. The five associated funerary objects associated with Burial #9A are two lots of animal teeth, one lot of stone tools, one lot of charcoal, and one lot of animal bone. The two associated funerary objects associated with Burial #9B are one lot of animal teeth and one lot of animal bones and red ochre.

The burial in Feature 46 (MNI = 1) is also named Burial #10. Burial #10 was transferred to FAU between 1972 and 1973, and returned to UofL in March 2018. No known individuals were identified. The two associated funerary objects associated with Burial #10 are one lot of stone flakes and one lot of ochre.

The burial in Feature 70 (MNI = 1) is also named Burial #11. Burial #11 was transferred to FAU between 1972 and 1973, and returned to UofL in March 2018. No known individuals were identified. The one associated funerary object associated with Burial #11 is one lot of stone tools.

Some confusion exists over Burial #12 (MNI = 1). In one notation, the burial in Feature #73 is also named Burial #12. Although this burial was described as non-recoverable in the excavation report, human remains returned to UofL from FAU in March 2018 included an individual labeled Burial #12 (MNI = 1) in good condition. No known individuals were identified. The one associated funerary object associated with Burial #12 is one lot of stone tools.

The burial in Feature 125 (MNI = 1) is also named Burial #14. Burial #14 remained at UofL after excavation. No known individuals were identified. No associated funerary objects are present.

The burial in Feature 87 (MNI = 1) is also named Burial #16. Burial #16 remained at UofL after excavation. No known individuals were identified. No associated funerary objects are present.

Other than the adult and sub-adult identified in Feature 65, no age or sex estimations were completed due to the condition of the human remains and the nature of the initial excavation project.
