

returned to UoFL in March 2018. No known individuals were identified. The one associated funerary object is one lot of lithics.

The burials in Feature 72 (MNI = 2) are also named Burial #9A and #9B. Burial #9A remained at UoFL after excavation. Burial #9B remained at UoFL after excavation except for some small fragments that were sent to FAU between 1972 and 1973, and returned to UoFL in March 2018. No known individuals were identified. The five associated funerary objects associated with Burial #9A are two lots of animal teeth, one lot of stone tools, one lot of charcoal, and one lot of animal bone. The two associated funerary objects associated with Burial #9B are one lot of animal teeth and one lot of animal bones and red ochre.

The burial in Feature 46 (MNI = 1) is also named Burial #10. Burial #10 was transferred to FAU between 1972 and 1973, and returned to UoFL in March 2018. No known individuals were identified. The two associated funerary objects associated with Burial #10 are one lot of stone flakes and one lot of ochre.

The burial in Feature 70 (MNI = 1) is also named Burial #11. Burial #11 was transferred to FAU between 1972 and 1973, and returned to UoFL in March 2018. No known individuals were identified. The one associated funerary object associated with Burial #11 is one lot of stone tools.

Some confusion exists over Burial #12 (MNI = 1). In one notation, the burial in Feature #73 is also named Burial #12. Although this burial was described as non-recoverable in the excavation report, human remains returned to UoFL from FAU in March 2018 included an individual labeled Burial #12 (MNI = 1) in good condition. No known individuals were identified. The one associated funerary object associated with Burial #12 is one lot of stone tools.

The burial in Feature 125 (MNI = 1) is also named Burial #14. Burial #14 remained at UoFL after excavation. No known individuals were identified. No associated funerary objects are present.

The burial in Feature 87 (MNI = 1) is also named Burial #16. Burial #16 remained at UoFL after excavation. No known individuals were identified. No associated funerary objects are present.

Other than the adult and sub-adult identified in Feature 65, no age or sex estimations were completed due to the condition of the human remains and the nature of the initial excavation project.

Determinations Made by the University of Louisville

Officials of the University of Louisville have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice are Native American based on radio-carbon dating, types of tools, and style of burial. The site was determined to have a primary occupation of approximately 8,500 years ago.

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 16 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the 15 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and associated funerary objects and any present-day Indian Tribe.

- Pursuant to 25 U.S.C. 3001 (15), the land from which the Native American human remains and associated funerary objects was not tribal land at the time of removal.

- According to final judgments of the Indian Claims Commission or the Court of Federal Claims, the land from which the Native American human remains and associated funerary objects were removed is the aboriginal land of The Chickasaw Nation.

- Treaties, Acts of Congress, or Executive Orders indicate that the land from which the Native American human remains and associated funerary objects were removed is the aboriginal land of the Cherokee Nation; Eastern Band of Cherokee Indians; The Chickasaw Nation; and the United Keetoowah Band of Cherokee Indians in Oklahoma (hereafter referred to as "The Tribes").

- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains and associated funerary objects may be to The Tribes.

Additional Requestors and Disposition

Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Dr. Thomas Jennings, University of Louisville Department of Anthropology, Lutz Hall 228, Louisville, KY 40292, telephone (502) 852-2421, email thomas.jennings@louisville.edu,

by August 14, 2019. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to The Tribes may proceed.

The University of Louisville is responsible for notifying The Tribes that this notice has been published.

History and Description of the Remains

In 1972, human remains representing, at minimum, one individual were removed from archeological site 25DS108 in Dawson County, NE. The human remains were excavated by the University of Nebraska, Lincoln during archeological investigations of the proposed Mid-State Irrigation Project under a contract with the National Park Service. In 2011, the human remains were discovered and removed from the 25DS108 archeological collection during a curation project conducted by History Nebraska under an agreement with the Bureau of Reclamation. The human remains represent one individual of unknown sex and age. No known individuals were identified. No associated funerary objects are present.

In 1933, human remains representing, at minimum, one individual were removed from the Mousel site 25FT5-A in Frontier County, NE. The human remains were excavated by History Nebraska during archeological investigations. The human remains represent one individual of unknown age or sex. No known individuals were identified. No associated funerary objects are present.

In 1988, human remains, representing, at minimum, one individual were removed from the Keith site 25FT18-A in Frontier County, NE. The human remains, called the Red Ochre Burial, were removed by the Bureau of Reclamation due to exposure on a receding shoreline at Medicine Creek Reservoir. The human remains represent one (probably female) child 3-7 years of age. No known individuals

were identified. The 17 associated funerary objects are one lot of red ochre, one complete bead, one bead fragment, one marine shell bead, one bone awl, one modified mussel shell fragment, one lot of unmodified mussel shells, three chipped stone scrapers, one chipped stone projectile point, one lot of pottery sherds, one lot of soils, one lot of seeds, one lot of snail shells, one small chipped stone flake fragment, and one lot of chipped stone flaking debris.

In 1947, human remains representing, at minimum, one individual were removed from Feature 20 at the Keith site 25FT18-B in Frontier County, NE. The human remains were excavated by the Smithsonian Institution-River Basin Surveys during archeological investigations. In 2011, the human remains were discovered and removed from the 25FT18 archeological collection during a curation project conducted by History Nebraska under an agreement with the Bureau of Reclamation. The human remains represent one individual of unknown sex and age. No known individuals were identified. The 18 associated funerary objects are unmodified small animal bones and unmodified freshwater mussel shells.

In 1976, human remains representing, at minimum, eight individuals were removed from archeological site 25FT21 in Frontier County, NE. The human remains were exhumed by the University of Nebraska State Museum following reports of looting and exposure at the site. The human remains represent eight individuals—one subadult 2 to 4 years of age (25FT21-A); three adults of unknown age or sex (25FT21-B, 25FT21-E, 25FT21-G); one male older than 16 (25FT21-C); one subadult of unknown sex (25FT21-D); one adult of unknown sex older than 16 (25FT21-F); and one adult of unknown sex older than 24 (25FT21-H). No known individuals were identified. No associated funerary objects are present.

From 1947 to 1950, human remains representing, at minimum, one individual were removed from "Occupation Level II" at the Allen site 25FT50 in Frontier County, NE. The human remains were excavated by the University of Nebraska State Museum during archeological investigations. In 2011, the human remains were discovered and removed from the 25FT50 archeological collection during a curation project conducted by History Nebraska under an agreement with the Bureau of Reclamation. The human remains represent one individual of unknown sex and age. No known individuals were identified. No associated funerary objects are present.

In 1982, human remains representing, at minimum, one individual were removed from archeological site 25GF13 in Garfield County, NE. The human remains were excavated by the University of Nebraska, Lincoln working under a contract with the Bureau of Reclamation during construction of the Mirdan Canal project. The human remains represent one adult female of unknown age. No known individuals were identified. No associated funerary objects are present.

In 1950, human remains representing, at minimum, one individual were removed from the Carmody site 25HK7 in Hitchcock County, NE. The human remains were excavated by History Nebraska during the course of archeological investigations conducted prior to the construction of the Trenton Dam. The human remains represent one adult of unknown sex and age. No known individuals were identified. The one associated funerary object is a mussel shell.

In 1971, human remains representing, at minimum, one individual were removed from archeological site 25HK16 in Hitchcock County, NE. The human remains were discovered by a private individual eroding into the Swanson Reservoir. The human remains represent an elderly female. No known individuals were identified. No associated funerary objects are present.

The human remains listed in this notice were determined to be Native American based on archeological context, burial patterns, osteology, or associated diagnostic artifacts. Based on oral tradition and archeological evidence, the Bureau of Reclamation and History Nebraska have determined there is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects listed in this notice and the Native American people that are represented today by 37 Indian Tribes.

Determinations Made by the U.S. Department of the Interior, Bureau of Reclamation, Nebraska-Kansas Area Office and History Nebraska

Officials of the U.S. Department of the Interior, Bureau of Reclamation, Nebraska-Kansas Area Office and History Nebraska have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 16 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the 36 objects described in this notice that are reasonably believed to have been placed with or near individual

human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and The Consulted and Invited Tribes.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Rob Bozell, History Nebraska, 5050 N 32nd Street Lincoln, NE 68504, telephone (402) 525-1624, email rob.bozell@nebraska.gov, by August 14, 2019. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to The Consulted and Invited Tribes may proceed.

The U.S. Department of the Interior, Bureau of Reclamation, Nebraska-Kansas Area Office is responsible for notifying The Consulted and Invited Tribes that this notice has been published.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-627-629 and 731-TA-1458-1461 (Preliminary)]

Utility Scale Wind Towers From Canada, Indonesia, Korea, and Vietnam; Institution of Anti-Dumping and Countervailing Duty Investigations and Scheduling of Preliminary Phase Investigations

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the institution of investigations and commencement of preliminary phase antidumping and countervailing duty investigation Nos. 701-TA-627-629 and 731-TA-1458-1461 (Preliminary) pursuant to the Tariff Act of 1930 ("the Act") to determine whether there is a reasonable indication that an industry in the United States is materially injured or threatened with

material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of utility scale wind towers from Canada, Indonesia, Korea, and Vietnam, provided for in subheadings 7308.20.00 and 8502.31.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value in Canada, Indonesia, Korea, and Vietnam, and alleged to be subsidized by the Governments of Canada, Indonesia, and Vietnam. Unless the Department of Commerce ("Commerce") extends the time for initiation, the Commission must reach a preliminary determination in antidumping and countervailing duty investigations in 45 days, or in this case by August 23, 2019. The Commission's views must be transmitted to Commerce within five business days thereafter, or by August 30, 2019.

DATES: July 9, 2019.
