

++ TJC's capacity to adequately fund required surveys.

++ TJC's policies with respect to whether surveys are announced or unannounced, to assure that surveys are unannounced.

++ TJC's agreement to provide CMS with a copy of the most current accreditation survey together with any other information related to the survey as CMS may require (including corrective action plans).

- TJC's agreement or policies for voluntary and involuntary termination of suppliers.

- TJC agreement or policies for voluntary and involuntary termination of the HIT AO program.

IV. Collection of Information Requirements

This document does not impose information collection and requirements, that is, reporting, recordkeeping or third party disclosure requirements. Consequently, there is no need for review by the Office of Management and Budget under the authority of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

V. Response to Public Comments

Because of the large number of public comments we normally receive on **Federal Register** documents, we are not able to acknowledge or respond to them individually. We will consider all comments we receive by the date and time specified in the **DATES** section of this preamble, and, when we proceed with a subsequent document, we will respond to the comments in the preamble to that document.

Upon completion of our evaluation, including evaluation of comments received as a result of this notice, we will publish a final notice in the **Federal Register** announcing the result of our evaluation.

Dated: July 3, 2019.

Seema Verma,

Administrator, Centers for Medicare & Medicaid Services.

BILLING CODE 4120-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Proposed Information Collection Activity; The Early Head Start Family and Child Experiences Survey (Baby FACES 2020; OMB #0970-0354)

AGENCY: Office of Planning, Research, and Evaluation; Administration for Children and Families; HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) seeks approval to collect descriptive information for the Early Head Start Family and Child Experiences Survey 2020 (Baby FACES 2020).

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Email: OIRA_SUBMISSION@OMB.EOP.GOV, Attn: Desk Officer for the Administration for Children and Families.

Copies of the proposed collection may be obtained by emailing OPREinfocollection@acf.hhs.gov. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street SW, Washington, DC 20201, Attn: OPRE Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: This information collection is to provide nationally representative data on Early Head Start (EHS) programs, centers, classrooms, staff, and families to guide program planning, technical assistance, and research. The proposed data collection builds upon a prior round of the study conducted in 2018 (Baby FACES 2018; OMB 0970-0354) that obtained information on EHS programs at a point in time to better understand how program processes support relationships (e.g., between home visitors and parents, between parents and children, and between teachers and children) which are hypothesized to lead to improved child and family outcomes. Baby FACES 2020 has the same goals as Baby FACES 2018, but while the 2018 study focused on classroom-based relationships, the current study will take a closer look at home visiting processes. A new addition for this round is a measure of parent-child interaction which will allow exploration of hypothesized associations between home visitor-parent relationships and parent-child relationships. All other instruments are updates of those approved for the last round in 2018.

Respondents: Early Head Start program directors, child care center directors, teachers and home visitors, and parents of enrolled children.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Classroom/home visitor sampling form (from EHS staff)	407	204	1	.17	35
Child roster form (from EHS staff)	252	126	1	.33	42
Parent consent form	2,495	1,248	1	.17	212
Parent survey	2,084	1,042	1	.53	552
Parent Child Report	2,008	1,004	1	.33	331
Staff survey (Teacher survey and Home visitor survey)	1,317	659	1	.50	330
Staff Child Report	1,046	523	2.13	.25	279
Program director survey	120	60	1	.50	30
Center director survey	294	147	1	.50	74
Parent child interaction	996	498	1	.17	85

Estimated Total Annual Burden Hours: 1,970.

Authorities: Sec. 640(a)(2)(D) and Sec. 649 of the Improving Head Start for School Readiness Act.

Sec. 645A and 649 of the Improving Head Start for School Readiness Act of 2007 and the Consolidated Appropriations Act of 2017.

Mary B. Jones,

ACF/OPRE Certifying Officer.

BILLING CODE 4184–22–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Behavioral Interventions To Advance Self-Sufficiency Next Generation (BIAS–NG) (0970–0502)

AGENCY: Office of Planning, Research, and Evaluation; Administration for Children and Families; HHS.

ACTION: Request for public comment.

SUMMARY: The Office of Planning, Research, and Evaluation (OPRE) in the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) requests Office of Management and Budget (OMB) approval to modify the previously approved pilot generic clearance (0970–0502) to collect data as part of rapid cycle testing and evaluation, in order to inform the design of interventions informed by behavioral science and to better understand the mechanisms and effects of such interventions. Interventions have been and will continue to be developed in the program area domains of Temporary Assistance for Needy Families (TANF) and child welfare, and this revision would also allow for collection of data in the Early Head Start/Head Start program area. These interventions are intended to improve outcomes for participants in these programs.

DATES: *Comments due within 30 days of publication.* OMB is required to make a

decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Email: *OIRA_SUBMISSION@OMB.EOP.GOV*. Attn: Desk Officer for the Administration for Children and Families.

Copies of the proposed collection may be obtained by emailing *OPREinfocollection@acf.hhs.gov*. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street SW, Washington, DC 20201, Attn: OPRE Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Correction

This is a republication of **Federal Register** 2019–13701; 84 FR 30718 to ensure the correct materials are available for public comment on *RegInfo.gov*.

Description: OPRE is conducting the Behavioral Interventions to Advance Self-Sufficiency Next Generation (BIAS–NG) project. This project uses behavioral insights to design and test interventions intended to improve the efficiency, operations, and efficacy of human services programs. The BIAS–NG project is applying and testing behavioral insights to ACF programs including TANF and Child Welfare, and intends to expand these efforts to Early Head Start/Head Start. This notice is a revision to a previously approved collection, which included data collection to design and test interventions in the TANF and Child Welfare domains. Under the approved pilot generic clearance, OPRE plans to work with approximately six sites, and

will conduct one or more tests per site, for a total of approximately 9 tests of behavioral interventions. At least one of these sites will be in the newly added program area of Head Start/Early Head Start. The design and testing of BIAS–NG interventions is rapid and, to the extent possible, iterative. Each specific intervention is designed in consultation with agency leaders and launched as quickly as possible. To maximize the likelihood that the intervention produces measurable, significant, positive effects on outcomes of interest, rapid cycle evaluation techniques will be employed in which proximate outcomes will be measured to allow the research team to more quickly iterate and adjust the intervention design, informing subsequent tests. Due to the rapid and iterative nature of this work, OPRE sought and received generic clearance to conduct this research. Following standard OMB requirements for generic clearances, once instruments requiring burden are tailored to a specific site and the site's intervention, OPRE submits an individual generic information collection request under this umbrella clearance. Each request includes the individual instrument(s), a justification specific to the individual information collection, a description of the proposed intervention, and any supplementary documents. Each specific information collection includes up to two submissions: One submission for the formative stage research and another submission for any further data collection requiring burden during the testing phase. The type of information to be collected and the uses of the information is described in the supporting statements, found here: https://www.reginfo.gov/public/do/PRAViewDocument?ref_nbr=201707-0970-005.

This Notice is specific to expanding the program area domains to include Early Head Start/Head Start, in addition to the previously approved domains of Child Welfare and TANF.

Respondents: (1) Program Administrators, (2) Program Staff and (3) Program Clients.

TOTAL BURDEN ESTIMATES [TANF, CW, Third Domain]

Instrument	Previously approved respondents for TANF & CW	Total number of respondents (TANF, CW, EHS/HS)	Number of responses per respondent	Average burden hours per response	Total burden hours with 3rd domain
Diagnosis and Design					
Administrator interviews/focus groups	24	48	1	1	48
Staff interviews/focus groups	48	378	1	1	378
