

Government deals with responsible subcontractors. Paragraph (b) of 52.209–6 prohibits contractors from entering into any subcontract in excess of \$35,000 with a subcontractor that is debarred, suspended, or proposed for debarment by any executive agency unless there is a compelling reason to do so. Paragraph (c) of the clause requires the contractor to require each proposed subcontractor whose subcontract will exceed \$35,000, to disclose to the contractor in writing, whether as of the time of award of the subcontract, the subcontractor, or its principals, is or is not debarred, suspended, or proposed for debarment by the Government. Paragraph (d) of clause requires that before entering into a subcontract with a party that is debarred, suspended, or proposed for debarment, a corporate officer or designee of the contractor must notify the contracting officer, in writing, of the name of the subcontractor; why the subcontractor is debarred, suspended, or ineligible; the compelling reason(s) for doing business with the subcontractor; and how the contractor will protect the Government's interests when dealing with such subcontractor. For any subcontract subject to Government consent, contracting officers shall not consent to such subcontracts, unless the agency head or a designee states in writing the compelling reasons for approving such subcontract.

3. *Information Regarding Responsibility Matters and Updates to that Publicly Available Information (FAR 52.209–7 and 52.209–9).* Section 872 of the Duncan Hunter National Defense Authorization Act of 2009 (Pub. L. 110–417), enacted on October 14, 2008, required the development and maintenance of an information system that contains specific information on the integrity and performance of covered Federal agency contractors and grantees. The Federal Awardee Performance and Integrity Information System (FAPIIS) was developed to address these requirements. FAPIIS provides users access to integrity and performance information from the FAPIIS reporting module in the Contractor Performance Assessment Reporting System (CPARS), as well as proceedings information and suspension/debarment information from SAM. FAR provision 52.209–7, Information Regarding Responsibility Matters, requires information that is necessary to: (1) Determine the responsibility of prospective contractors; and (2) ensure that contractors maintain for accuracy and completeness, their integrity and performance information upon which

responsibility determinations rely. Paragraph (b) of the provision contains a check box to be completed by the offeror indicating whether or not it has current active Federal contracts and grants with total value greater than \$10,000,000. Paragraph (c) of the provision states that, if the offeror indicated in paragraph (b) that it has current active Federal contracts and grants with total value greater than \$10,000,000, then, by submission of the offer, the offeror represents that the information entered into FAPIIS is current, accurate, and complete as of the date of submission of the offer.

FAR clause 52.209–9, Updates of Publicly Available Information Regarding Responsibility Matters, implements the requirement to keep FAPIIS up-to-date and the requirement of section 3010 of the Supplemental Appropriations Act, 2010 (Pub. L. 111–212), to make all information posted in FAPIIS on or after April 15, 2011, except past performance reviews, publicly available. Paragraph (a) of the clause at 52.209–9 requires the contractor to update responsibility information on a semiannual basis, throughout the life of the contract, by posting the information in SAM. Paragraph (c) of the clause lets contractors know of their ability to provide feedback on information posted by the Government in FAPIIS and the procedure to follow in the event information exempt from public disclosure is slated to become publicly available information in FAPIIS.

4. *Prohibition on Contracting with Inverted Domestic Corporations (FAR 52.209–2, 52.209–10, and 52.212–3(n)).* Section 745 of Division D of the Consolidated Appropriations Act, 2008 (Pub. L. 110–161) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions) prohibit, on a Governmentwide basis, the use of appropriated (or otherwise made available) funds for contracts with either an inverted domestic corporation, or a subsidiary of such a corporation.

FAR provision 52.209–2, Prohibition on Contracting with Inverted Domestic Corporations-Representation, and its equivalent for commercial acquisitions at FAR provision 52.212–3(n), requires each offeror to represent whether it is, or is not, an inverted domestic corporation or a subsidiary of an inverted domestic corporation.

FAR clause 52.209–10, Prohibition on Contracting with Inverted Domestic Corporations, requires the contractor to promptly notify the contracting officer in the event the contractor becomes an inverted domestic corporation or a

subsidiary of an inverted domestic corporation during the period of performance of the contract.

**SUPPLEMENTARY INFORMATION:**

**A. OMB Control Number, Title, and Any Associated Form(s)**

9000–0069, Indirect Cost Rates, Predetermined Indirect Cost Rates, and Bankruptcy Notifications.

**B. Needs and Uses**

The Federal Acquisition Regulatory Council is in the process of combining OMB Control Numbers for the Federal Acquisition Regulation (FAR) by FAR part to the maximum practicable extent. This consolidation is expected to improve industry's ability to easily and efficiently identify all burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or

unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports revision and extension of the expiration date of OMB Control No. 9000–0069 and combines it with the previously approved information collection OMB Control No. 9000–0108, with the new title “Indirect Cost Rates, Predetermined Indirect Cost Rates, and Bankruptcy Notifications”. Upon approval of this consolidated information collection, OMB Control No. 9000–0108 will be discontinued. The burden requirements previously approved under the discontinued Number will be covered under OMB Control No. 9000–0069.

This clearance covers the information that contractors must submit to comply with the following FAR requirements:

1. 52.216–7, Allowable Cost and Payment, paragraph (d), requires that final annual indirect cost rates and the appropriate bases shall be established in accordance with FAR subpart 42.7. These rates are used, in part, in cost reimbursement contracts, time and materials contracts (other than for commercial items and not for labor-hour contracts), and for certain types of fixed price contracts construction contracts. The clause requires the contractor to submit an adequate final indirect cost rate proposal to the contracting officer and the auditor within the 6-month period following the expiration of each of its fiscal years. The proposed rates shall be based on the contractor's actual cost experience for that period. This clause provides a list of the data required to be submitted. The data is customary business financial information that the contractor can access from its automated business systems.

2. 52.216–15, Predetermined Indirect Cost Rates, used in solicitations and contracts for a cost-reimbursement research and development contract with an educational institution and addresses how the allowable indirect costs under the contract shall be obtained by applying predetermined indirect costs to bases agreed by the parties. This clause repeats the requirement in FAR 52.216–7, paragraph (d), for the contractor to submit an adequate final indirect cost rate proposal, however it does not impose any additional reporting requirements.

3. 52.242–4, Certification of Final Indirect Costs, requires the contractor's proposal of final indirect cost rates to be certified to establish or modify the rates used to reimburse the contractor for the

costs of performing under the contract. The supporting cost data are the cost accounting information normally prepared by organizations under sound management and accounting practices. This clause is incorporated into all solicitations and contracts, except for the Department of Energy Management and Operating contracts, that provide for establishment of final indirect cost rates.

4. 52.242–13, Bankruptcy. This clause requires contractors to notify the contracting officer within five days after initiating the proceedings relating to bankruptcy filing.
