

NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov/> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Policy Statement for the "Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement," Maintenance of Existing Agreement State Programs, Request for Information Through the Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire, and Agreement State Participation in IMPEP.

2. *OMB approval number:* 3150-0183.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Every four years for completion of the IMPEP questionnaire in preparation for an IMPEP review. One time for new Agreement State applications. Annually for participation by Agreement States in the IMPEP reviews and fulfilling requirements for Agreement States to maintain their programs.

6. *Who will be required or asked to respond:* All Agreement States (38 Agreement States who have signed Agreements with NRC under Section 274b. of the Atomic Energy Act (Act)) and any non-Agreement State seeking to

sign an Agreement with the Commission.

7. *The estimated number of annual responses:* 65.

8. *The estimated number of annual respondents:* 40 (38 existing Agreement States, one Agreement State Application currently being reviewed by the NRC, and one anticipated new application).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 298,194 hours (an average of 7,455 hours per respondent). This includes 636 hours to complete the IMPEP questionnaires; 2,250 hours to prepare one new Agreement State application, 468 hours for participation in IMPEP reviews; and 294,840 hours for maintaining Existing Agreement State programs.

10. *Abstract:* The States wishing to become Agreement States are requested to provide certain information to the NRC as specified by the Commission's Policy Statement, "Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement." The Agreement States need to ensure that the radiation control program under the Agreement remains adequate and compatible with the requirements of Section 274 of the Act and must maintain certain information. The NRC conducts periodic evaluations through IMPEP to ensure that these programs are compatible with the NRC's program, meet the applicable parts of the Act, and adequate to protect public health and safety.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 5th day of August, 2019.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7710-12-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-86557; File No. SR-CboeBZX-2019-057]]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Designation of a Longer Period for Commission Action on a Proposed Rule Change To List and Trade Shares of the American Century Focused Dynamic Growth ETF and American Century Focused Large Cap Value ETF Under Currently Proposed Rule 14.11(k)

August 2, 2019.

On June 6, 2019, Cboe BZX Exchange, Inc. filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

(“Act”)¹ and Rule 19b-4 thereunder,² a proposed rule change to list and trade shares of the American Century Focused Dynamic Growth ETF and American Century Focused Large Cap Value ETF under proposed Rule 14.11(k) (Managed Portfolio Shares). The proposed rule change was published for comment in the **Federal Register** on June 25, 2019.³ The Commission has received no comment letters on the proposed rule change.

Section 19(b)(2) of the Act⁴ provides that, within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the notice for this proposed rule change is August 9, 2019. The Commission is extending this 45-day time period.

The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change. Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,⁵ designates September 23, 2019, as the date by which the Commission shall either approve or disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change (File Number SR-CboeBZX-2019-057).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁶

Jill M. Peterson,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-86554; File No. SR-DTC-2019-005]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing of Proposed Rule Change To Amend the Settlement Guide To Implement a New Algorithm for Transactions Processed in the Night Cycle

August 2, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 22, 2019, The Depository Trust Company (“DTC”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the clearing agency. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency’s Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change³ of DTC consists of amendments to the Procedures⁴ set forth in the Settlement Guide⁵ to implement a new processing algorithm for book-entry Deliveries⁶ and Payment Orders⁷ processed in the DTC night cycle (“Night Cycle”), as described in greater detail below.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ Capitalized terms not defined herein are defined in the Rules, By-Laws and Organization Certificate of DTC (“Rules”), available at www.dtcc.com/~media/Files/Downloads/legal/rules/dtc_rules.pdf, and the DTC Settlement Service Guide (“Settlement Guide”), available at <http://www.dtcc.com/~media/Files/Downloads/legal/service-guides/Settlement.pdf>.

⁴ Pursuant to the Rules, the term “Procedures” means the Procedures, service guides, and regulations of DTC adopted pursuant to Rule 27, as amended from time to time. See Rule 1, Section 1, *supra* note 3. Pursuant to Rule 27, each Participant and DTC is bound by the Procedures and any amendment thereto in the same manner as it is bound by the Rules. See Rule 27, *supra* note 3.

⁵ *Supra* note 3.

⁶ Pursuant to Rule 1, the term “Delivery” as used with respect to a Security held in the form of a Security Entitlement on the books of DTC, means debiting the Security from an Account of the Deliverer and crediting the Security to an Account of the Receiver. *Supra* note 3.

⁷ Pursuant to the Settlement Guide, “Payment Order” means a transaction in which a Participant charges another Participant for changes in value for outstanding stock loans or option contract premiums. See Settlement Guide, *supra* note 3, at 5.

II. Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the clearing agency included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The clearing agency has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

(A) Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend the Settlement Guide to implement a new processing algorithm for Deliveries and Payment Orders processed in the Night Cycle.

(i) Background

Pursuant to the proposed rule change, DTC is proposing to make enhancements to its processing of transactions in the Night Cycle (“Night Cycle Reengineering”), as more fully described below. Night Cycle Reengineering is designed to maximize transaction throughput by optimizing available positions and controlling the order in which transactions are attempted for settlement within existing Night Cycle timeframes. The reengineered Night Cycle would introduce a new, advanced settlement processing algorithm capable of evaluating each Participant’s transaction obligations, available positions, transaction priorities and risk management controls, including Net Debit Cap and Collateral Monitor,⁸ to identify the transaction processing order that maximizes Night Cycle settlement rates. DTC believes that the proposed rule change would facilitate more efficient processing of Deliveries and Payment Orders in the Night Cycle and increase the percentage of transactions that have been processed for settlement

⁸ In managing its credit risk, DTC uses the Collateral Monitor and Net Debit Cap. These two controls work together to protect the DTC settlement system in the event of Participant default. The Collateral Monitor requires net debit settlement obligations, as they accrue intraday, to be fully collateralized; the Net Debit Cap limits the amount of any Participant’s net debit settlement obligation to an amount that can be satisfied with DTC liquidity resources (the Participants Fund and the committed line of credit from a consortium of lenders). See Settlement Guide, *supra* note 3, at 64-67.
