

Project (NMNM136976), in Catron County, New Mexico, within a boundary that encompasses land managed by the BLM, the New Mexico State Land Office (SLO), and private landowners. The project would be located south of U.S. Route 60 in Catron County near Quemado, New Mexico, and the Arizona-New Mexico border. Authorization of this proposal requires an amendment to the 2010 Socorro Field Office RMP to modify the visual resource management class in the project area and to modify a right-of-way avoidance area.

The Draft EIS addresses the direct, indirect, and cumulative environmental impacts of the Proposed Action, Alternative 1 (optimize the proposed wind facility components in order to minimize potential environmental impacts), Alternative 2 (change in the turbine generation types), and the No Action Alternative. Alternatives 1 and 2 would be constructed, operated, and maintained within the same project area. The Proposed Action and Alternative 1 would construct 40 turbines. However, because of the difference in type of turbine, Alternative 2 would only construct 34 turbines. The No Action Alternative would be a continuation of existing conditions.

A Notice of Intent to prepare an EIS for the proposed Borderlands Wind Project was published in the **Federal Register** on November 9, 2018 (83 FR 56097). The public scoping period closed on December 10, 2018. The BLM held one public scoping meeting on November 14, 2018. The BLM received 51 public scoping comment submissions during the 45-day scoping period. The scoping comments focused on wildlife, visual and cultural resources, light pollution, human health, local economic benefits, and property values.

The BLM continues to consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including potential impacts to cultural resources, will be given due consideration.
