Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** The Clean Air Act (CAA) contains several provisions directing the EPA to require source owners to conduct monitoring to support certification as to their status of compliance with applicable requirements. These provisions are set forth in section 504 and section 114 of the CAA. Under CAA section 504(c), each operating permit must "set forth inspection, entry, monitoring, compliance, certification and reporting requirements to assure compliance with the permit terms and conditions." See also CAA section 504(c) (each permit shall require reporting of monitoring the EPA and such other conditions as are necessary to assure compliance). CAA section 504(b) allows to prescribe by rule, methods and procedures for determining compliance, recognizing that continuous emissions monitoring systems need not be required if other procedures or methods provide sufficiently reliable and timely information for determining compliance. Section 114(a)(1) of the

CAA provides additional authority concerning monitoring, reporting, and recordkeeping requirements. This section provides the Administrator with the authority to require any owner/operator of a source to install and to operate monitoring systems and to record the resulting monitoring data. The EPA promulgated the Compliance Assurance Monitoring (CAM) Rule, 40 CFR part 64, on October 22, 1997 (62 FR 54900), pursuant to these provisions. In accordance with CAA section 114(c) and CAA section 503(e), the monitoring information source owners must submit must also be available to the public except under circumstances set forth in section 114(c) of the CAA. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations are listed in 40 CFR part 9.

**Form numbers:** None.

**Respondents/affected entities:** Entities potentially affected by this section are all facilities required to have an operating permit under title V of the CAA. See section 502(a) of the CAA, which defines the sources to obtain a title V permit. See also 40 CFR 70.2 and 71.2.

**Respondent's obligation to respond:** Mandatory under title V of the CAA. See section 502(a) of the CAA, which defines the sources required to obtain a title V permit. See also 40 CFR 70.2 and 71.2.

**Estimated number of respondents:** There are 21,448 pollutant specific emission units (PSEUs), where the number of respondents is the number of PSEUs subject to the compliance assurance monitoring rule, and 117 permitting authorities. Therefore, the estimated number of respondents is 21,565 (total).

**Frequency of response:** At least every 6 months per title V, 40 CFR 70.6(a)(3)(iii)(A) and (B).

**Total estimated burden:** 24,590 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$999,211 (per year), includes \$0 annualized capital or operation and maintenance costs.

**Changes in estimates:** There is a decrease of 26,490 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to an updated estimate of the number of sources and permits subject to the 40 CFR part 70 programs (a reduction of 1,768 permits), an increase in the number of permitting authorities (an addition of one), and a decrease in the

number of CAM plan renewal review hours (a decrease of 5.5 hours per occurrence), rather than any new federal mandates (i.e., changes in paperwork requirements to respondents). The decrease in total estimated burden hours leads to a decrease in total estimated cost.

#### SUPPLEMENTARY INFORMATION:

##### I. Does this action apply to me?

This is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the integration of tolerance reassessment with the reregistration process, and the status of various regulatory activities associated with reregistration and tolerance reassessment. Given the broad interest, the Agency has not attempted to identify or describe all the specific entities that may be interested in this action.

##### II. What action is the Agency taking?

This notice announces the availability of EPA's progress reports in meeting its performance measures and goals for pesticide reregistration during fiscal years 2013, 2014, 2015, and 2016.

The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 *et seq.*, requires EPA to publish information about EPA's annual achievements in meeting its performance measures and goals for pesticide reregistration. The reports for fiscal years 2013, 2014, 2015, and 2016 discuss the integration of tolerance reassessment with the reregistration process, and describe the status of various regulatory activities associated with reregistration and tolerance reassessment. The 2013, 2014, 2015 and 2016 reports also give total numbers of products reregistered and products registered under the "fast-track" provisions of FIFRA.

##### III. How can I get a copy of the reports?

1. *Docket.* The 2013, 2014, 2015 and 2016 reports are available at <http://www.regulations.gov>, under docket ID number EPA-HQ-OPP-2014-0125.

2. *EPA Website.* The 2013, 2014, 2015 and 2016 reports are also available on EPA's website at <https://www.epa.gov/pesticide-reevaluation/reregistration-and-other-review-programs-predating-pesticide-registration>.

##### IV. Can I comment on these reports?

EPA welcomes input from stakeholders and the general public. Any written comments received will be taken into consideration in the event that EPA determines that further action

is warranted. EPA does not expect these reports to lead to any particular action, and therefore is not seeking particular public comment.

##### V. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.
