

U.S. Embassy or Consulate, prior to their travel to Guam.

This discretionary change in policy does not preclude affected individuals from applying for parole by filing USCIS Form I-131, Application for Travel Document, consistent with the instructions for that form. In accordance with section 212(d)(5) of the INA (8 U.S.C. 1182(d)(5)), parole will only be issued on a case-by-case basis and only where the applicant demonstrates an urgent humanitarian or a significant public benefit reason for parole and that applicant merits a favorable exercise of discretion. Any alien may request parole to travel to the United States, but an alien does not have a right to parole.

Kevin K. McAleenan,
Acting Secretary.

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the San Bernardino Kangaroo Rat, City of Highland, San Bernardino County, CA; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from the City of Highland (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally endangered San Bernardino kangaroo rat incidental to construction in San Bernardino County, California. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP) and the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, which is also available for review.

DATES: We must receive your written comments on or before October 3, 2019.

ADDRESSES:

Obtaining Documents: You may obtain copies of the documents by the following methods:

- **Internet:** https://www.fws.gov/carlsbad/HCPs/HCP_Docs.html.
- **Telephone:** 760-322-2070.
- **U.S. Mail:** Attn: Assistant Field Supervisor, Palm Springs Fish and Wildlife Office, U.S. Fish and Wildlife Service, 777 East Tahquitz Canyon Way, Suite 208, Palm Springs, CA 92262.

• **In-Person:** You may examine the documents by appointment during regular business hours at the Palm Springs Fish and Wildlife Office (address above). Please call to make an appointment (see **FOR FURTHER INFORMATION CONTACT**).

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by any of the following methods:

- **Online:** https://www.fws.gov/carlsbad/HCPs/HCP_Docs.html.
- **Email:** fw8cfwocomments@fws.gov.
- **U.S. mail or hand-delivery:** Palm Springs Fish and Wildlife Office (address above).
- **Fax:** 760-322-4648.

FOR FURTHER INFORMATION CONTACT:

Karin Cleary-Rose, by telephone at 760-322-2070, ext. 406, via email at karin_cleary-rose@fws.gov, or via the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from the City of Highland, California (applicant), for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests an ITP to take the federally endangered San Bernardino kangaroo rat (*Dipodomys merriami parvus*) incidental to the construction of a storm drain outlet (project) in San Bernardino County, California. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP) and the Service's preliminary determination that the HCP qualifies as "low-effect," categorically excluded under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, which is also available for public review.

Project

The applicant requests a 5-year ITP to take the San Bernardino kangaroo rat (SBKR) incidental to the temporary impact of 0.10 acres (ac) of occupied SBKR foraging and sheltering habitat for the construction of storm drain outlet

located on a 21-ac parcel, Assessor's Parcel Numbers 1201-321-36 and 1201-311-01, in Sections 4, Township 1 South, Range 3 West, San Bernardino County, California. The applicant proposes to mitigate for take of the SBKR through (1) relocation of all SBKR captured on the project area by live-trapping and release into pre-established artificial burrows immediately outside of the project area and (2) restoration and/or enhancement of 0.14 ac of SBKR habitat on the project site.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including land clearing, infrastructure building, and the proposed mitigation and minimization measures, would individually and cumulatively have a minor or negligible effect on the SBKR and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not over time result in significant cumulative effects to environmental values or resources.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the above findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue the permit to the City of Highland.

Authority

The Service provides this notice under section 10(c) (16 U.S.C. 1539(c)) of the ESA and NEPA regulation 40 CFR 1506.6.

Scott Sobiech,

Acting Field Supervisor, Carlsbad Field Office, Pacific Southwest Region.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service**

[FWS-R8-ES-2019-N118;

FXES11130800000-178-FF08E00000]

**Endangered and Threatened Species;
Receipt of Recovery Permit
Applications**

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before October 3, 2019.

ADDRESSES: *Document availability and comment submission:* Submit requests for copies of the applications and related documents and submit any comments by one of the following methods. All requests and comments should specify the applicant name(s) and application number(s) (e.g., TExXXXXX).

- *Email:* permitsr8es@fws.gov.
- *U.S. Mail:* Daniel Marquez,

Endangered Species Program Manager, U.S. Fish and Wildlife Service, Region 8, 2800 Cottage Way, Room W-2606, Sacramento, CA 95825.

FOR FURTHER INFORMATION CONTACT:

Daniel Marquez, via phone at 760-431-9440, via email at permitsr8es@fws.gov, or via the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered or threatened under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA's definition of "take" includes such activities as pursuing, harassing,

trapping, capturing, or collecting in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

**Permit Applications Available for
Review and Comment**

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.
