The course is designed to be hands-on and is composed of classroom sessions, out-of-class preparation work, and executive mentoring groups where participants can discuss their challenges. A broad range of topics is covered in the curriculum, including financial measures of business health, strategies for marketing, access to funding, and employee management and recruitment.

SBA conducts annual performance-monitoring activities to assess the short- and intermediate-term outcomes of participants in the Emerging Leaders Initiative. SBA uses the three survey instruments described below to collect

the assessment information from the participants in each training cohort. The broad outcomes assessed include the participants' satisfaction with the course, changes in their business' economic outcomes, such as loans obtained and jobs created, and changes in management behavior.
