

identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-DTC-2019-005 and should be submitted on or before October 16, 2019.

V. Accelerated Approval of the Proposed Rule Change, as Modified as Partial Amendment No. 1

The Commission finds good cause, pursuant to Section 19(b)(2) of the Act,²⁰ to approve the proposed rule change prior to the 30th day after the date of publication of Partial Amendment No. 1 in the **Federal Register**. As noted above, Partial Amendment No. 1 delays the implementation timeframe of the proposal from September 26, 2019 to December 6, 2019.²¹ The Commission believes that the Partial Amendment is consistent with the Act because it does not raise any regulatory issues and would provide more time before the proposal would go into effect.

For the reasons discussed above, the Commission finds that Partial Amendment No. 1 is reasonably designed to protect investors and the public interest, and consistent with the requirements of the Act. Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,²² to approve the proposed rule change, as modified by Partial Amendment No. 1, on an accelerated basis.

VI. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change, as modified by Partial Amendment No. 1, is consistent with the requirements of the Act and, in particular, with the requirements of Section 17A of the Act²³ and the rules and regulations promulgated thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act²⁴ that proposed rule change SR-DTC-2019-005, as modified by Amendment No. 1, be, and hereby is, approved on an accelerated basis.²⁵

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁶

Jill M. Peterson,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87017; File No. SR-NYSEARCA-2019-66]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Extend the Pilot Related to the Market-Wide Circuit Breaker in Rule 7.12-E

September 19, 2019.

Pursuant to Section 19(b)(1) ¹ of the Securities Exchange Act of 1934 (the “Act”) ² and Rule 19b-4 thereunder,³ notice is hereby given that, on September 17, 2019, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend the pilot related to the market-wide circuit breaker in Rule 7.12-E. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below,

of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

Rule 7.12-E provides a methodology for determining when to halt trading in all stocks due to extraordinary market volatility (*i.e.*, market-wide circuit breakers). The market-wide circuit breaker (“MWCB”) mechanism under Rule 7.12-E was approved by the Commission to operate on a pilot basis,⁴ the term of which was to coincide with the pilot period for the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS (the “LULD Plan”),⁵ including any extensions to the pilot period for the LULD Plan.⁶ The Commission recently approved an amendment to the LULD Plan for it to operate on a permanent, rather than pilot, basis.⁷ In light of the proposal to make the LULD Plan permanent, the Exchange amended Rule 7.12-E to untie the pilot's effectiveness from that of the LULD Plan and to extend the pilot's effectiveness to the close of business on October 18, 2019.⁸

The Exchange now proposes to amend Rule 7.12-E to extend the pilot to the close of business on October 18, 2020. This filing does not propose any substantive or additional changes to Rule 7.12-E. The Exchange will use the extension period to develop with the other SROs rules and procedures that would allow for the periodic testing of the performance of the MWCB mechanism, with industry member participation in such testing. The extension will also permit the exchanges to consider enhancements to the MWCB processes such as modifications to the Level 3 process.

The market-wide circuit breaker under Rule 7.12-E provides an

³ 17 CFR 240.19b-4.

important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based declines. All U.S. equity exchanges and FINRA adopted uniform rules on a pilot basis relating to market-wide circuit breakers in 2012 ("MWCB Rules"), which are designed to slow the effects of extreme price movement through coordinated trading halts across securities markets when severe price declines reach levels that may exhaust market liquidity.⁹ Market-wide circuit breakers provide for trading halts in all equities and options markets during a severe market decline as measured by a single-day decline in the S&P 500 Index.

Pursuant to Rule 7.12-E, a market-wide trading halt will be triggered if the S&P 500 Index declines in price by specified percentages from the prior day's closing price of that index. Currently, the triggers are set at three circuit breaker thresholds: 7% (Level 1), 13% (Level 2), and 20% (Level 3). A market decline that triggers a Level 1 or Level 2 halt after 9:30 a.m. ET and before 3:25 p.m. ET would halt market-wide trading for 15 minutes, while a similar market decline at or after 3:25 p.m. ET would not halt market-wide trading. A market decline that triggers a Level 3 halt, at any time during the trading day, would halt market-wide trading until the primary listing market opens the next trading day.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The market-wide circuit breaker mechanism under Rule 7.12-E is an important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based

declines. Extending the market-wide circuit breaker pilot for an additional year would ensure the continued, uninterrupted operation of a consistent mechanism to halt trading across the U.S. markets while the Exchange, with the other SROs, consider and develop rules and procedures that would allow for the periodic testing of the performance of the MWCB mechanism, which would include industry member participation in such testing. The extension will also permit the exchanges to consider enhancements to the MWCB processes such as modifications to the Level 3 process.

The Exchange also believes that the proposed rule change promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning when and how to halt trading in all stocks as a result of extraordinary market volatility. Based on the foregoing, the Exchange believes the benefits to market participants from the MWCB under Rule 7.12-E should continue on a pilot basis because the MWCB will promote fair and orderly markets, and protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act because the proposal would ensure the continued, uninterrupted operation of a consistent mechanism to halt trading across the U.S. markets while the Exchange, in conjunction with the other SROs, consider and develop rules and procedures that would allow for the periodic testing of the performance of the MWCB mechanism. Furthermore, as noted above, the extension will permit the exchanges to consider enhancements to the MWCB processes such as modifications to the Level 3 process.

Further, the Exchange understands that FINRA and other national securities exchanges will file proposals to extend their rules regarding the market-wide circuit breaker pilot. Thus, the proposed rule change will help to ensure consistency across market centers without implicating any competitive issues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹² and Rule 19b-4(f)(6)(iii) thereunder.¹³

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁴ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEARCA-2019-66 on the subject line.

Paper Comments

- Send paper comments in triplicate to: Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEARCA-2019-66. This file number should be included on the

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87024; File No. SR-CBOE-2019-059]

Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Certain Rules Relating To Market-Makers Upon Migration to the Trading System Used by Cboe Affiliated Exchanges

September 19, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on

September 6, 2019, Cboe Exchange, Inc. filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe Exchange, Inc. (the "Exchange" or "Cboe Options") proposes to amend and move certain current Rules in connection with Market-Makers from the Exchange's currently effective Rulebook ("current Rulebook") to the shell structure for the Exchange's Rulebook that will become effective upon the migration of the Exchange's trading platform to the same system used by the Cboe Affiliated Exchanges (as defined below) ("shell Rulebook"). The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In 2016, the Exchange's parent company, Cboe Global Markets, Inc. (formerly named CBOE Holdings, Inc.) ("Cboe Global"), which is also the parent company of Cboe C2 Exchange, Inc. ("C2"), acquired Cboe EDGA Exchange, Inc. ("EDGA"), Cboe EDGX Exchange, Inc. ("EDGX" or "EDGX Options"), Cboe BZX Exchange, Inc. ("BZX" or "BZX Options"), and Cboe

BYX Exchange, Inc. ("BYX" and, together with Cboe Options, C2, EDGX, EDGA, and BZX, the "Cboe Affiliated Exchanges"). The Cboe Affiliated Exchanges are working to align certain system functionality, retaining only intended differences between the Cboe Affiliated Exchanges, in the context of a technology migration. The Exchange intends to migrate its trading platform to the same system used by the Cboe Affiliated Exchanges, which the Exchange expects to complete on October 7, 2019. The Exchange believes offering similar functionality to the extent practicable will reduce potential confusion for market participants.

In connection with this technology migration, the Exchange has a shell Rulebook that resides alongside its current Rulebook, which shell Rulebook will contain the Rules that will be in place upon completion of the Cboe Options technology migration.

The Exchange now proposes to update and amend its rules under Chapter 8 (Market-Makers, Trading Crowds and Modified Trading Systems). Specifically, the Exchange proposes to amend its rules regarding Market-Maker registration, class appointments, and obligations (applicable to Market-Makers generally and the various Market-Maker types, *i.e.* Designated Primary Market-Makers ("DPMs"), Primary Market-Makers ("PMMs"), and Lead Market-Makers ("LMMs")) to conform to the corresponding Market-Makers rules of its affiliated options exchanges, C2, EDGX Options, and BZX Options (the "Affiliated Options Exchanges").³ The Exchange proposes these amendments to reflect the current Market-Maker functionality and general rule language of that of the Affiliated Options Exchanges to the extent necessary to retain intended differences unique to Cboe Options market-model, functionality and/or rule text. In conforming its Rule to that of is Affiliated Options Exchanges' rules, the Exchange proposes few substantive changes, which include proposed changes to the FLEX appointment process, updates to Market-Maker class appointments and obligations to such appointments to apply across Global Trading Hours ("GTH") and Regular Trading Hours ("RTH"), updates to the

³ The Exchange notes that the Affiliated Options Exchanges recently updated and harmonized their Market-Maker rules. The recent updates to BZX Option's Market-Maker rules will be implemented on or around October 1, 2019, and this filing refers to these updates. See Securities Exchange Act Release No. 85845 (May 13, 2019), 84 FR 22541 (May 17, 2019) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Delay the Operative Date of Rule Change Pursuant to SR-CboeBZX-2019-025) (SR-CboeBZX-2019-043).
