

United States District Court for the Western District of Pennsylvania in the lawsuit entitled *United States, Pennsylvania Department of Environmental Protection, and Allegheny County Health Department v. Allegheny County Sanitary Authority* ("Alcosan"), Civil Action No. 2:07-cv-00737.

The proposed modified consent decree would replace a consent decree entered by the court on January 24, 2008, which resolved claims under Sections 301 and 402 of the Clean Water Act, 33 U.S.C. 1311, 1342, that Alcosan violated the Clean Water Act by discharging pollutants into waters of the United States without a permit, and by discharging pollutants in a manner not contemplated by its National Pollutant Discharge Elimination System ("NPDES") permit. Those violations occurred primarily during wet weather, which causes Alcosan's sewer system to overload and to discharge through a network of outfalls that run along three main rivers in the area—the Allegheny, Ohio, and Monongahela Rivers. Alcosan paid a civil penalty to the Plaintiffs of \$1.2 million and completed supplemental environmental projects under the 2008 consent decree. The proposed modified consent decree, among other things: (1) Approves a long-term plan under which Alcosan will reduce sewer overflows; (2) extends the time period for Alcosan to implement the long-term plan; and (3) incorporates additional opportunities to modify the long-term plan.

The publication of this notice opens a period for public comment on the proposed modified consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Alcosan*, D.J. Ref. No. 90–5–1–1–4414.
