

and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The SEDAR 60 In-person Workshop is being held to address both data and assessment concerns. The items for discussion could include:

1. Participants could evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery independent and fishery dependent measures of stock abundance, as specified in the Terms of Reference for the workshop, to develop an assessment data set and associated documentation.

2. Participants might then consider methods and configuration options for models, recommend assessment methods (*i.e.*, model types) to pursue for potential base model configuration, identify likely issues to be addressed and evaluated in developing the base model, review base model alternatives and recommend a base model approach and configuration. Participants could also, recommend sensitivities and uncertainty evaluations, review continuity, sensitivities and uncertainty evaluations, recommend projection approaches and configuration and review projection results.

The In person Workshop is open to the public. Additional information about SEDAR 60, including a public comment form is available from the SEDAR website at: <http://sedarweb.org/sedar-60>.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 1, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Pacific Coast Groundfish Trawl Rationalization Program Permit and License Information Collection

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 3, 2019.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Jahnava Duryea, National Marine Fisheries Service, California Central Valley Office, 650 Capital Mall, Suite 5-100, Sacramento, CA 95814, (916) 930-3725 or via email at jahnava.duryea@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) requests comments on the extension of a currently approved information collection for the West

Coast Region's Pacific Coast Groundfish Trawl Rationalization Program.

The Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, provides that the Secretary of Commerce is responsible for the conservation and management of marine fisheries resources in the Exclusive Economic Zone (3-200 miles) of the United States. NMFS West Coast Region manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off the coasts of Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan (FMP).

In January 2011, NMFS implemented a trawl rationalization program, which is a catch share program, for the Pacific Coast Groundfish Limited Entry Trawl Fishery. The program was implemented through Amendments 20 and 21 to the Pacific Coast Groundfish FMP and the corresponding implementing regulations at 50 CFR part 660. Amendment 20 established the trawl rationalization program that consists of an individual fishing quota (IFQ) program for the shorebased trawl fleet (including whiting and nonwhiting sectors) and cooperative programs for the at-sea mothership and catcher/processor trawl fleets (whiting only). Amendment 21 set long-term allocations for the limited entry trawl sectors of certain groundfish species.

Under the trawl rationalization program, new permits, accounts, endorsements and licenses were established. These consist of: Quota share (QS) permits/accounts, vessel accounts, first receiver site licenses, mothership endorsements on certain limited entry trawl permits, mothership catcher vessel endorsements on certain limited entry trawl permits, catcher/processor endorsements on certain limited entry trawl permits, a mothership cooperative permit, and a catcher/processor cooperative permit. NMFS collects information from program participants required to: (1) Establish new permits, accounts, and licenses; (2) renew permits, accounts, and licenses; (3) allow trading of QS percentages and quota pounds (QP) in online QS and vessel accounts, and allow transfer of catch history assignments between limited entry trawl permits; (4) track compliance with program control limits; and (5) implement other features of the regulations pertaining to permits and licenses.

As part of its fishery management responsibilities, NMFS requires this information to determine whether a respondent complies with regulations that pertain to the issuance, renewal,

and transfer and use of quota. Identification of the participants of the trawl rationalization program, their gear types, descriptions of their vessels, and activity levels are needed to control and determine the extent of fishing and to track inseason quota use. Collection of this information also allows NMFS to equitably manage annual shorebased trawl allocations for the fishery and enforce control limits such that no person may own or control, or have a controlling influence over, quota for any individual species that exceeds the Shorebased IFQ Program accumulation limits. NMFS requests comments on the extension of these permit information collections.

II. Method of Collection

Information is collected by mail and electronically.

The following information is collected by mail: QS permit application forms; late QS permit renewals; vessel account registration requests; late vessel account renewals; trawl identification of ownership interest forms for new applicants, mothership catcher vessel endorsed limited entry permit owners, and mothership permit owners; first receiver site license application forms; mothership permit renewal forms; mothership permit change of vessel registration, permit owner, or vessel owner application forms; mothership cooperative permit application forms; change of mothership catcher vessel endorsement and catch history assignment registration forms; mutual agreement exception forms; mothership withdrawal forms; catcher/processor cooperative permit application forms; material change forms; and QS abandonment requests.

The following information is collected electronically: QS permit renewals; QS percent transfers; QP transfers from a QS account to a vessel account; vessel account renewals; QP transfers from a vessel account to another vessel account; and trawl identification of ownership interest forms for online QS and vessel account renewals.

III. Data

OMB Control Number: 0648–0620.

Form Number(s): None.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations; non-profit institutions; State, local, or tribal government.

Estimated Number of Respondents: 410.

Estimated Time per Response: QS permit/account application form—30 minutes; QS permit/account online

renewal—10 minutes; QS permit/account late renewal form—15 minutes; QS transfer—10 minutes; QP transfer from QS account to vessel account—8 minutes; vessel account registration request—15 minutes; vessel account online renewal—10 minutes; vessel account late renewal form—15 minutes; QP transfer from vessel account to another vessel account—8 minutes; trawl identification of ownership interest form for new entrants—45 minutes; trawl identification of ownership interest form for renewals—5 minutes; first receiver site license application form for new entrants—210 minutes; first receiver site license application form for re-registering license holders—110 minutes; mothership permit renewal form—20 minutes; mothership permit change of vessel registration, permit owner, or vessel owner application form—45 minutes; mothership cooperative permit application form—240 minutes; change of mothership catcher vessel endorsement and catch history assignment registration form—45 minutes; mutual agreement exception—60 minutes; mothership withdrawal—120 minutes; catcher/processor cooperative permit application form—120 minutes; QS abandonment request—10 minutes.

Estimated Total Annual Burden Hours: 640.

Estimated Total Annual Cost to Public: \$12,475.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XV092

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Joint Scallop Advisory Panel and Plan Development Team to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Wednesday, October 23, 2019 at 9 a.m.

ADDRESSES: The meeting will be held at the New Bedford Harbor Hotel, 222 Union Street, New Bedford, MA 02740; phone: (508) 999–1292.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Joint Scallop Advisory Panel and Plan Development Team will review Framework (FW) 32 alternatives and analyses. The primary focus of this meeting will be to provide input on the range of specification alternatives. FW 32 will set specifications including ABC/ACLs, days-at-sea, access area allocations, total allowable catch for the Northern Gulf of Maine (NGOM) management area, targets for General Category incidental catch, and set-asides for the observer and research programs for fishing year 2019 and default specifications for fishing year 2020. Management measures in FW 32
