Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 62 Assessment Webinar V for Gulf of Mexico gray triggerfish.

SUMMARY: The SEDAR 62 stock assessment process for Gulf of Mexico gray triggerfish will consist of an In-person Workshop, and a series of data and assessment webinars. See **SUPPLEMENTARY INFORMATION.**

DATES: The SEDAR 62 Assessment Webinar V will be held November 13, 2019, from 1 p.m. to 3 p.m., Eastern Time.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates

potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Assessment Webinar are as follows:

1. Using datasets and initial assessment analysis recommended from the in-person workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.
2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 1, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting (webinar).

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Salmon Technical Team and Scientific and Statistical salmon subcommittee will hold a joint methodology review meeting. This meeting will be held via webinar and is open to the public.

DATES: The webinar will be held Tuesday, October 22, 2019 at 9 a.m. and will end at 4 p.m. or when business for the day has been completed.

ADDRESSES: A public listening station is available at the Pacific Council office (address below). To attend the webinar, use this link: <https://www.gotomeeting.com/webinar> (click "Join" in top right corner of page); (1) Enter the Webinar ID: 439-088-851; (2) Enter your name and email address (required); You must use your telephone for the audio portion of the meeting by dialing this TOLL number: 1 (415) 655-0052; (3) Enter the Attendee phone audio access code: 714-668-149. *Note:* We have disabled Mic/Speakers as an option and require all participants to use a telephone or cell phone to participate. Technical Information and System Requirements: PC-based attendees are required to use Windows® 7, Vista, or XP; Mac®-based attendees are required to use Mac OS® X 10.5 or newer; Mobile attendees are required to use iPhone®, iPad®, Android™ phone or Android tablet (see <https://www.gotomeeting.com/webinar/ipad-iphone-android-webinar-apps>). You may send an email to Mr. Kris Kleinschmidt at Kris.Kleinschmidt@noaa.gov or contact him at 503-820-2280, extension 411 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE

Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Robin Ehlke, Pacific Council; telephone: (503) 820-2410.

SUPPLEMENTARY INFORMATION: The purpose of the methodology review meeting is to discuss and review proposed changes to analytical methods used in salmon management. Three topics were approved for consideration of review at the September 2019 Pacific Council meeting: (1) Conduct the technical analysis needed to inform a change of the salmon management boundary line from latitude 40°05' (Horse Mountain, California) five miles north to latitude 40°10', (2) Examine the data and models used to forecast impacts on Columbia River summer Chinook to determine whether a change in methodology is warranted, and (3) Provide documentation of the abundance forecast approach used for Willapa Bay natural coho.

Results and recommendations from this methodology review meeting will be presented at the November 2019 Pacific Council meeting where the Pacific Council is scheduled to take final action on the proposals. A draft of the updated Fishery Regulation Assessment Model user manual provided by the Pacific Council's Model Evaluation Workgroup may also be discussed. If time and interest allows, additional topics may be discussed, including, but not limited to, future Pacific Council agenda items.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The public listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2411) at least 10 days prior to the meeting date.

Dated: October 1, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[RTID 0648-XW008]

Endangered and Threatened Species; Initiation of 5-Year Reviews for 28 Listed Species of Pacific Salmon and Steelhead

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of initiation of 5-year reviews; request for information.

SUMMARY: We, NMFS, are announcing 5-year reviews of 28 species listed under the Endangered Species Act of 1973, as amended (ESA). The listed species comprise 17 evolutionarily significant units (ESUs) of Pacific salmon (*Oncorhynchus spp.*) and 11 distinct population segments (DPSs) of steelhead (*Oncorhynchus mykiss*). The purpose of these reviews is to ensure the accuracy of their listing classifications. The 5-year reviews will be based on the best scientific and commercial data available at the time of the reviews; therefore, we are requesting that interested parties submit new relevant information on these ESUs and DPSs that has become available since the last species status reviews in 2016. Based on the results of these 5-year reviews, we will make the requisite determinations under the ESA.

DATES: To allow us adequate time to conduct these reviews, we must receive the new relevant information by close of business on March 27, 2020.

ADDRESSES: You may submit information on this document, identified by NOAA-NMFS-2019-0097, by any of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal e-Rulemaking Portal www.regulations.gov. To submit comments via the e-Rulemaking Portal, first click the "submit a comment" icon, then enter NOAA-NMFS-2019-0097 in the keyword search. Locate the document you wish to comment on from the resulting list and click on the "Submit a Comment" icon to the right of that line.

- *Mail or Hand-delivery:* Address comments to Robert Markle, NMFS,

West Coast Region, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232.

Instructions: Comments must be submitted by one of the above methods to ensure that we can receive, document, and consider them. Comments sent by any other method, sent to any other address or individual, or received after the end of the comment period may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. We request that all information be accompanied by: (1) Supporting documentation such as maps, bibliographic references, or reprints of pertinent publications; and (2) the submitter's name, address, and any association, institution, or business that the person represents. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

Please note that submissions without supporting information—those merely stating support for or opposition to the action under consideration—will be noted but not used in making any listing determinations, as such comments do not represent actual scientific or commercial data.

FOR FURTHER INFORMATION CONTACT: Robert Markle at the above address, by phone at (503) 230-5419, or by email at robert.markle@noaa.gov.

SUPPLEMENTARY INFORMATION: Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every five years. On the basis of such reviews, we determine under section 4(c)(2)(B) whether a species should be delisted, or reclassified from endangered to threatened or from threatened to endangered.

We will undertake reviews for the following 17 Pacific salmon ESUs: (1) Sacramento River winter-run Chinook salmon; (2) Upper Columbia River spring-run Chinook salmon; (3) Snake River spring/summer-run Chinook salmon; (4) Central Valley spring-run Chinook salmon; (5) California Coastal Chinook salmon; (6) Puget Sound Chinook salmon; (7) Lower Columbia River Chinook salmon; (8) Upper Willamette River Chinook salmon; (9) Snake River fall-run Chinook salmon; (10) Hood Canal summer-run chum salmon; (11) Columbia River chum salmon; (12) Central California Coast
