On October 24, 2018, the Commission released a Report and Order, FCC 18-149, in GN Docket No. 17-158, adopting limited changes to the rules governing Priority Access Licenses (PALs) in the 3550-3700 MHz (3.5 GHz) band, including larger license areas, longer license terms, renewability, and performance requirements. The Commission anticipated that the targeted changes made in its *2018 Report and Order* will spur additional investment and broader deployment in the band, promote robust and efficient spectrum use, and help ensure the rapid deployment of advanced wireless technologies—including 5G—in the United States. Among these changes, the Commission revised section 96.32(a) of its rules to require that an applicant must file an application for an initial PAL, and that the application must: (1) Demonstrate the applicant's qualifications to hold an authorization; (2) state how a grant would serve the public interest, convenience, and necessity; (3) contain all information required by FCC rules and application forms; (4) propose operation of a facility or facilities in compliance with all rules governing the Citizens Broadband Radio Service; and (5) be amended as necessary to remain substantially accurate and complete in all significant respects, in accordance with the provisions of section 1.65 of the Commission's rules.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601.

OMB Control Number: 3060-0800.

Title: FCC Application For Assignment of Authorization and Transfers of Control: Wireless Telecommunications Bureau and Public Safety and Homeland Security Bureau.

Form Number: FCC Form 603.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities, not for profit institutions, individuals and households, and state, local, or tribal government.

Number of Respondents: 2,547 respondents; 2,547 responses.

Estimated Time per Response: 0.5 to 1.75 hours.

Frequency of Response:

Recordkeeping requirement, on occasion reporting requirement, and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection is contained in 47 U.S.C. 154, 155, 158, 161, 301, 303(r), 308, 309, 310, and 332.

Total Annual Burden: 2,872 hours.

Total Annual Cost: \$381,975.

Privacy Impact Assessment: Yes.

Nature and Extent of Confidentiality:

In general, there is no need for confidentiality with this collection of information.

Needs and Uses: FCC Form 603 is a multi-purpose form that is used by radio services in Wireless Services within the Universal Licensing System (ULS). FCC 603 is composed of a main form that contains the administrative information and a series of schedules. These schedules are required when applying for Auctioned Services, Partitioning and Disaggregation, Undefined Geographical Area Partitioning, and Notification of Consummation or Request for Extension of Time for Consummation. Applicants/licensees in the Public Mobile Services, Personal Communications Services, Private Land Mobile Radio Services, Broadband Radio Service, Educational Broadband Service, Maritime Services (excluding Ship), and Aviation Services (excluding Aircraft) use FCC Form 603 to apply for an assignment or transfer, to establish their parties' basic eligibility and qualifications, to classify the filing, and/or to determine the nature of the proposed service. This form is also used to notify the FCC of consummated assignments and transfers of wireless licenses to which the Commission has previously consented or for which notification but not prior consent is required. Respondents are required to submit FCC Form 603 electronically, except in certain services specifically designated by the Commission.

The data collected on FCC Form 603 include the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 required that those filing with the Commission to use an FRN, effective December 3, 2001.

Records may include information about individuals or households, e.g., personally identifiable information or PII, and the use(s) and disclosure of this information are governed by the requirements of a system of records notice or 'SORN', FCC/WTB-1, "Wireless Services Licensing Records." The Commission seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060-0800 to permit the collection of the additional information in connection with partial assignments of authorizations for geographic partitioning, spectrum disaggregation, or a combination of both, pursuant to the rules and information collection requirements adopted by the Commission *2018 Report and Order*. Specifically, in the *2018 Report and Order*, the Commission revised section 96.32(b) of its rules to allow Priority Access Licensees to partition their licenses or disaggregate their spectrum, and partially assign or transfer their licenses, pursuant to § 1.950 of the Commission's rules. Because of the additional Priority Access Licensees, additional respondents may be filing FCC Form 603 for assignments or transfers of control of licenses.
