## Foreign-Trade Zones Board

[B-62-2019]

**Foreign-Trade Zone (FTZ) 141—  
Rochester, New York; Notification of  
Proposed Production Activity;  
Eastman Kodak Company; (One-Time  
Use Cameras); Rochester, New York**

Eastman Kodak Company (Eastman Kodak) submitted a notification of proposed production activity to the FTZ Board for its facility in Rochester, New York. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on September 26, 2019.

Eastman Kodak already has authority to produce printer cartridges and thermal media within FTZ 141. The current request would add a finished

product and a foreign status component to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status component and specific finished product described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Eastman Kodak from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, Eastman Kodak would be able to choose the duty rates during customs entry procedures that apply to underwater one-time use cameras (duty-free). Eastman Kodak would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The component sourced from abroad is a non-flash one-time use camera (duty-free). The request indicates that one-time use cameras are subject to special duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is November 20, 2019.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

**Welded Large Diameter Line Pipe From  
Japan: Continuation of Antidumping  
Duty Order**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on welded large diameter line pipe (line pipe) from Japan would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing this notice of continuation of the AD order.

**DATES:** Applicable October 11, 2019.

**FOR FURTHER INFORMATION CONTACT:** John McGowan, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3019.

**SUPPLEMENTARY INFORMATION:****Background**

On September 11, 2018, Commerce published the notice of initiation of the third sunset review of the AD order on line pipe from Japan, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).<sup>1</sup> As a result of the review, Commerce determined that revocation of the AD order on line pipe from Japan would likely lead to a continuation or recurrence of dumping.<sup>2</sup> Commerce, therefore, notified the ITC of the magnitude of the dumping margins likely to prevail should the AD order be revoked. On October 3, 2019, the ITC published notice of its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the AD order on line pipe from Japan would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>3</sup>
