

314° bearing, thence extending to a 4.1-mile radius of Buchanan Field from the 314° bearing clockwise to the 205° bearing from the airport to contain instrument approach procedures as aircraft descend through 1,000 feet AGL. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

Additionally, this action proposes to establish Class E5 airspace extending upward from 700 feet above the surface within a 4.1-mile radius of Buchanan Field and within 2.5 miles each side of the 009° bearing from the airport extending from the 4.1-mile radius to 11 miles north of Buchanan Field and within 2.5 miles each side of the 023° bearing from the airport extending from the 4.1-mile radius to 11 miles northeast of the airport to contain instrument approach procedures as aircraft descend through 1,500 feet AGL.

Further, this action proposes to remove the Concord VOR/DME and the associated extensions to simplify how the airspace is described.

Lastly, this action proposes a minor editorial amendment to remove the city listed before the airport name in the legal description header information to comply with airspace policy guidance.

Class D airspace designations are published in paragraph 5000 of FAA Order 7400.11D and Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air

traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

SUPPLEMENTARY INFORMATION:

I. Comment Period Extension

On July 25, 2019, the Commission published in the **Federal Register** a Request for Public Comment on the Federal Trade Commission's Implementation of the COPPA Rule (84 FR 35842), with an October 23, 2019 deadline for filing comments ("the Notice"). The Commission published the Notice to facilitate the Commission's review of the COPPA Rule to ensure that it has kept up with marketplace, technology, and business model changes that have occurred since the Commission ended its last review of the COPPA Rule in 2013. Interested parties have subsequently requested an extension of the public comment period to give them additional time to respond to the Notice's requests for comment and to address actions that have occurred since the Commission published the Notice, including the Commission's announcement of a new COPPA enforcement action on September 4, 2019 and the completion of the Commission's public workshop on "The Future of the COPPA Rule" on October 7, 2019.

The Commission agrees that allowing additional time for filing comments on its implementation of the COPPA Rule would help facilitate the creation of a more complete record. The Commission has therefore decided to extend the comment period for 45 days, to December 9, 2019. A 45-day extension provides commenters adequate time to address the issues raised in the Notice and relevant actions that have occurred since the Commission published the Notice.

II. Request for Comment
