

environmental justice, transportation, health and safety, and noise.

Central Electric plans to request financial assistance for the proposed Project from RUS. Completing the EIS is one of RUS's requirements in processing a future application from Central Electric, along with other technical and financial considerations. In accordance with 40 CFR 1501.5(b) of the Council on Environmental Quality's (CEQ) Regulation for Implementing the Procedural Provisions of the National Environmental Policy Act (CEQ Regulations), RUS will serve as the lead agency in the preparation of the EIS. The U.S. Army Corps of Engineers and the U.S. Forest Service are participating as cooperating agencies. RUS has prepared a Supplemental Draft EIS to analyze the impacts of the respective federal actions and the proposed Project in accordance with the National Environmental Policy Act (NEPA), as amended, CEQ Regulations, RUS Environmental Policies and Procedures, and the U.S. Forest Service's National Environmental Policy Act procedures.

Because the proposed Project may involve action in floodplains or wetlands, this Notice also serves as a notice of proposed floodplain or wetland action. The Supplemental Draft EIS will include an assessment of effects to floodplains/wetlands and, if required, a statement of findings will be issued with the Final EIS.

RUS has determined that its action regarding the proposed Project would be an undertaking subject to review under Section 106 of the National Historic Preservation Act (Section 106), and its implementing regulations, "Protection of Historic Properties." As part of its broad environmental review process, RUS must consider the effect of the proposed Project on historic properties in accordance with Section 106. Pursuant to 36 CFR 800.2(d)(3), RUS is using its procedures for public involvement under NEPA to meet its responsibilities to solicit and consider the views of the public during Section 106 review. Accordingly, comments submitted in response to this Notice will inform RUS decision-making in its Section 106 review process. Any party wishing to participate more directly with RUS as a "consulting party" in Section 106 review may submit a written request to the RUS contact provided in this Notice.

Agency Responsibilities: RUS is serving as the lead agency, as defined at 40 CFR 1501.5, for preparation of the Supplemental Draft EIS. The U.S. Army Corps of Engineers and the U.S. Forest Service are participating as cooperating agencies and may issue separate

Records of Decision relevant to the Project under separate authorities. For the U.S. Forest Service, a draft Record of Decision would be subject to the Agency's administrative review process at 36 CFR part 218, subparts A and B. The U.S. Forest Service may need to issue a special use permit to authorize occupancy of National Forest System lands for this proposal. Per 40 CFR 1506.3, the U.S. Forest Service intends to review and adopt the Final EIS, if found sufficient, in support of issuance of a special use permit.

Public Participation: The EIS process has included past scoping meetings and comment periods; consultation and involvement with appropriate Federal, State, local, and tribal governments; and a public meeting and comment period on the Draft EIS issued in 2014. Comments may be submitted as provided in the **ADDRESSES** section of this notice. The process will be followed by the publication of a Final EIS as well as publication of a Record of Decision in the **Federal Register**.
