

purposes of calculating certain insurance claim payments made in cash. Therefore, for all claims paid in cash on mortgages insured under Section 203 or 234 of the National Housing Act and endorsed for insurance after January 23, 2004, the debenture interest rate will be the monthly average yield, for the month in which the default on the mortgage occurred, on United States Treasury Securities adjusted to a constant maturity of 10 years, as found in Federal Reserve Statistical Release H-15. The Federal Housing Administration has codified this provision in HUD regulations at 24 CFR 203.405(b) and 24 CFR 203.479(b).

Similarly, Section 520(a) of the National Housing Act (12 U.S.C. 1735d) provides for the payment of an insurance claim in cash on a mortgage or loan insured under any section of the National Housing Act before or after the enactment of the Housing and Urban Development Act of 1965. The amount of such payment shall be equivalent to the face amount of the debentures that would otherwise be issued, plus an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the Secretary. The implementing HUD regulations for multifamily insured mortgages at 24 CFR 207.259(e)(1) and (e)(6), when read together, provide that debenture interest on an multifamily insurance claim that is paid in cash is paid from the date of the loan default at the debenture rate in effect at the time of commitment or endorsement (or initial endorsement if there are two or more endorsements) of the loan, whichever is higher.

Section 221(g)(4) of the Act provides that debentures issued pursuant to that paragraph (with respect to the assignment of an insured mortgage to the Secretary) will bear interest at the "going Federal rate" in effect at the time the debentures are issued. The term "going Federal rate" is defined to mean the interest rate that the Secretary of the Treasury determines, pursuant to a statutory formula based on the average yield on all outstanding marketable Treasury obligations of 8- to 12-year maturities, for the 6-month periods of January through June and July through December of each year. Section 221(g)(4) is implemented in the HUD regulations at 24 CFR 221.255 and 24 CFR 221.790.

The Secretary of the Treasury has determined that the interest rate to be borne by debentures issued pursuant to Section 221(g)(4) during the 6-month period beginning July 1, 2019, is 2¾ percent.

The subject matter of this notice falls within the categorical exemption from HUD's environmental clearance procedures set forth in 24 CFR 50.19(c)(6). For that reason, no environmental finding has been prepared for this notice.
