OGIS uses the information customers provide in this information collection to contact customers, request information on the customer's case from other Federal agencies, and provide the requested assistance. SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

II. Current Actions

The *Building a National Network of Museums and Libraries for School Readiness* (SRP) is a project funded by IMLS that seeks to undertake a multilevel approach to expanding nationwide the IMLS-funded School Readiness through Partnerships model that addresses persistent gaps in early childhood education and school readiness. The goal of the SRP is to amplify the strength of organizations serving children and families by forming coalitions that ensure all children in their regions, regardless of socio-economic or linguistic background, have the skills needed to enter school prepared for success. Strongly aligned with the IMLS's goal to build capacity for museum and library staff, the SRP will engage six states and institutions nationwide in harnessing the power of museums and libraries to support school readiness.

Over the three year project timeline, BCM will maintain and continuously improve existing networks in Massachusetts; scale existing efforts in South Carolina and Virginia; pilot grassroots museum and library networks in three additional states (TBD) in collaboration with the BUILD Initiative ("BUILD"); and develop sustainability mechanisms for the network within and among the states. By the end of three years, there will be six statewide networks in sustaining mode nationwide. All of this will be done in consultation with IMLS. The Education Development Center (EDC) will serve as the third-party evaluator for the project, documenting the progress and testing the effectiveness of the model in building institutional readiness to serve families in their regions. The evaluation

will accomplish three key goals: (1) Document project activities and implement the network model, (2) identify institutional capacities and cross-organizational relationships that support model outreach, implementation, and sustainability, and (3) assess the perceived impact of the model among hub leaders, key partners, collaborating organizations, and participating families. EDC will use a mixed-methods design, pairing quantitative survey data with qualitative interview data.

The current action is to create the overall evaluation plan, survey, and data collection instruments and instructions for the evaluation techniques to be used at different points in the development and implementation of the SRP project over the next three years.
