BILLING CODE 4510-FW-P

DEPARTMENT OF LABOR

Office of Workers' Compensation Programs

Proposed Extension of Existing Collection; Comment Request

AGENCY: Division of Federal Employees' Compensation, Office of Workers' Compensation Programs, Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before January 6, 2020.

ADDRESSES: You may submit comments by mail, delivery service, or by hand to Anjanette Suggs, U.S. Department of Labor, 200 Constitution Ave. NW, Room S-3323, Washington, DC 20210; by fax, (202) 354-9660, or email to suggs.anjanette@dol.gov. Please use only one method of transmission for comments (mail or email).

SUPPLEMENTARY INFORMATION:

I. Background: The purpose of the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 *et seq.*, include

enhancing the quality and utility of information the Federal government requires and minimizing the paperwork and reporting burden of affected entities. The public is not required to respond to a collection of information unless it displays a currently valid OMB control number (44 U.S.C. 3507). Also, notwithstanding any other provisions of law, no person shall be subject to penalty for failing to comply with a collection of information if there is not a current valid OMB control number (44 U.S.C. 3512).

The DOL is requesting an approval of an extension of this information collection. This information collection is essential to the mission of DOL and the Office of Workers' Compensation Programs (OWCP), to monitor and assure the appropriate use of opioids and compounded drugs in treating employment-related injuries under the Federal Employees Compensation Act (FECA), 5 U.S.C. 8101 *et seq.*

The FECA statute grants OWCP discretion to provide an injured employee the "services, appliances, and supplies prescribed or recommended by a qualified physician" which OWCP considers "likely to cure, give relief, reduce the degree or the period of disability, or aid in lessening the amount of the monthly compensation." 5 U.S.C. 8103. In other words, OWCP is mandated to provide medical supplies and services—including prescription drugs such as opioids and compounded drugs—that it considers medically necessary. 20 CFR 10.310. The FECA statute and implementing regulations are not primarily focused on managing doctor/patient decisions relating to medication therapy and, with the exception of few limitations on fentanyl (an opioid) and other controlled substances, the FECA program policy on pharmacy benefits has generally been a policy of payment for prescribed medications in accordance with a fee schedule based on a percentage of the average wholesale price (AWP) for drugs identified by a National Drug Code (NDC). See 20 CFR 10.809. To this end, the FECA program has a prior authorization policy (based on medical necessity) for opioid and compounded drugs utilizing the pre-authorization authority already contained in its regulations at 20 CFR 10.310(a) and § 10.800(b).

Information collected on the CA-26 and the CA-27, require an injured worker's treating physician to answer a number of questions about the prescribed opioids and/or compounded drugs and certify that they are medically necessary to treat the work-related injury. The responses to the questions

on the forms are intended to ensure that treating physicians have considered non-opioid and non-compounded drug alternatives, and are only prescribing the most cost effective and medically necessary drugs. The forms also permit OWCP to more easily track the volume, type, and characteristics of opioids and compounded drugs authorized by the FECA program. The forms serve as a means for injured workers to continue receiving opioids and compounded drugs only where medically necessary and simultaneously give OWCP greater oversight in monitoring their appropriate use and gather additional data about their use.

II. Review Focus: The DOL is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * enhance the quality, utility and clarity of the information to be collected; and

- * minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: The DOL seeks the approval for the extension of this currently approved information collection in order to carry out its responsibility to meet the statutory requirements of the Federal Employees' Compensation Act.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (19-078)]

National Space-Based Positioning, Navigation, and Timing Advisory Board; Meeting

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, as amended, and the President's 2004 U.S. Space-Based Positioning, Navigation, and Timing (PNT) Policy, the National Aeronautics and Space Administration (NASA) announces a meeting of the National Space-Based Positioning, Navigation, and Timing (PNT) Advisory Board.

DATES: Wednesday, November 20, 2019, 8:30 a.m. to 5:30 p.m.; and Thursday, November 21, 2019, 8:30 a.m. to 1:00 p.m., Local Time.

ADDRESSES: Hilton Cocoa Beach Oceanfront, Grand Ballroom, 1550 North Atlantic Ave. Cocoa Beach, Florida, 32931.

FOR FURTHER INFORMATION CONTACT: Mr. James J. Miller, Designated Federal Official, Human Exploration and Operations Mission Directorate, NASA Headquarters, Washington, DC 20546, (202) 358-4417, fax (202) 358-4297, or jj.miller@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

The agenda for the meeting includes the following topics:

- Update on U.S. Space-Based Positioning, Navigation and Timing (PNT) Policy and Global Positioning System (GPS) modernization.

- Prioritize current and planned GPS capabilities and services while assessing future PNT architecture alternatives with a focus on affordability.

- Examine methods in which to Protect, Toughen, and Augment (PTA) access to GPS/Global Navigation Satellite Systems (GNSS) services in key domains for multiple user sectors.

- Assess economic impacts of GPS/GNSS on the United States and in select international regions, with a consideration towards effects of potential PNT service disruptions if radio spectrum interference is introduced.

- Review the potential benefits, perceived vulnerabilities, and any proposed regulatory constraints to accessing foreign Radio Navigation Satellite Service (RNSS) signals in the United States and subsequent impacts on multi-GNSS receiver markets.

- Explore opportunities for enhancing the interoperability of GPS with other emerging international GNSS.

- Examine emerging trends and requirements for PNT services in U.S. and international fora through PNT Board technical assessments, including back-up services for terrestrial, maritime, aviation, and space users.
