

importing-vehicles-and-engines). While EPA does not require that the forms be submitted directly to EPA, the forms are primarily used by CBP to facilitate the importation process at U.S. borders. EPA does require that the forms be kept by importers for a period of five years after importation to assist EPA's Office of Enforcement and Compliance Assurance (OECA) and CBP should any issues arise with any given importation.

In addition, this ICR covers the burden of EPA Form 3520-8 which is used to request final importation clearance for Independent Commercial Importers (ICIs) of on-highway vehicles who are required to bring the on-highway vehicles into compliance and provide emissions test results.

In 2016, CBP deployed the Automated Commercial Environment (ACE). ACE has become the primary system through which the trade community and other importers report imports and exports. Through ACE as the single point of submission, manual processes have been streamlined and automated, and paper submissions (e.g., fillable PDFs) have been significantly reduced. During the development of ACE, EPA worked with CBP to incorporate the information detailed on both EPA Declaration Forms 3520-1 and 3520-21 into ACE which effectively eliminates the forms as unique individual documents that are to be filled in and filed with CPB. Rather, importers will log into ACE and check boxes that correspond to information elements currently found on the forms. Filers using the ACE interface will also receive transaction information that will be kept by the filer. However, EPA will continue to maintain the forms on our website in fillable PDF format. Although importers are expected to use the ACE interface to submit information, the PDF versions of the form can also be submitted directly into ACE by importers.

EPA also makes available upon request EPA Form 3520-8 for on-highway vehicles. This form is used by independent commercial importers (ICIs) to request final admission of nonconforming vehicles.

Form numbers: 3520-1, 3520-21, 3520-8.

Frequency of response: Once per entry (one form per shipment may be used).

Respondents/affected entities: Information collected is from individual importers, or companies who import and/or manufacture on-highway vehicles and motorcycles and nonroad engines, vehicles, and equipment.

Respondent's obligation to respond: Required for any importer to legally import on-highway vehicles and motorcycles and nonroad engines,

vehicles, and equipment vehicles or engines into the U.S.

Estimated number of respondents: 14,810.

Total estimated burden: 81,985 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,244,699 (per year).

Changes in estimates: With the deployment of the ACE system, we are now able to have a much more accurate count of the number of forms that are being filed. As a result, we now know that number of entries being filed is around 160,000 per year vs. the 12,000 we had been estimating in previous ICRs. As a result, the burden estimates have increased significantly due to having a more accurate account of how many forms are being filed.

Dated: November 7, 2019.

Director, Compliance Division, Office of Transportation and Air Quality.

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor.

The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* Revision with change of a currently approved collection; *Title of Information Collection:* Medicare Advantage and Prescription Drug Program: Final Marketing Provisions in 42 CFR 422.111(a)(3) and 423.128(a)(3); *Use:* Pursuant to disclosure requirements set out in sections 1851(d)(2)(A) and 1860D-1(c) of the Social Security Act (the Act), and cited in §§ 422.111(a)(3) and 423.128(a)(3), Medicare Advantage (MA) organizations and Part D sponsors must provide notice to plan members of impending changes to plan benefits, premiums and cost sharing in the coming year. MA organizations and Part D sponsors must notify plan members of the coming year changes using the standardized ANOC. Plans must disseminate the EOC at the time of enrollment and at least annually thereafter.

CMS requires MA organizations and Part D sponsors to use the standardized documents being submitted for OMB approval to satisfy disclosure requirements mandated by section 1851(d)(3)(A) of the Act and § 422.111 for MA organizations and section 1860D-1(c) of the Act and § 423.128(a)(3) for Part D sponsors.

CMS collects and retains the MA organization and Part D plan marketing materials via the Health Plan Management System
