FOR FURTHER INFORMATION CONTACT:

William Troup, Chief, United States Fire Administration-National Fire Data Center, (301) 447-1231. You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The National Commission on Fire Prevention and Control conducted a comprehensive study of the Nation's fire problem and recommended to Congress actions to mitigate the fire problem, reduce loss of life and property, and educate the public on fire protection and prevention. As a result of the study, Congress enacted Public Law 93-498, Federal Fire Prevention and Control Act of 1974, which establishes the U.S. Fire Administration to administer fire prevention and control programs, supplement existing programs of research, training, and education, and encourage new and improved programs and activities by State and local governments. Section 9(a) of the Act authorizes the Administrator, U.S. Fire Administration (USFA), to operate directly or through contracts or grants, an integrated, comprehensive method to select, analyze, publish, and disseminate information related to prevention, occurrence, control, and results of fires of all types.

NFIRS was established in the mid-1970s and is mandated by the Federal

Fire Prevention and Control Act of 1974 (Pub. L. (PL) 93-498, as amended) which authorizes the National Fire Data Center to gather and analyze information such as (1) the frequency, causes, spread, and extinguishment of fires; (2) injuries and deaths resulting from fires; (3) information on injuries sustained by a firefighter; and (4) information on firefighting activities. The act further authorizes USFA to develop uniform data reporting methods, and to encourage and assist Federal, State, local and other agencies in developing and reporting information. NFIRS is a reporting standard that fire departments use to uniformly report on the full range of their activities, from fire to emergency medical services to severe weather and natural disasters. This reporting allows fire departments, as well as many other government and non-government agencies, to quantify their actions and identify incident and response trends.

This information collection expired on 04/30/2019. FEMA is requesting a reinstatement, without change, of a previously approved information collection for which approval has expired.

Collection of Information

Title: National Fire Incident Reporting System (NFIRS) v5.0.

Type of Information Collection: Reinstatement, with change, of a previously approved information collection for which approval has expired.

OMB Number: OMB No. 1660-0069.

Form Titles and Numbers: The National Fire Incident Reporting System (NFIRS) v5.0 Modules 1-11.

Abstract: NFIRS provides a mechanism using standardized reporting methods to collect and analyze fire incident data at the Federal, State, and local levels. Data analysis helps local fire departments and States to focus on current problems, predict future problems in their communities, and measure whether their programs are working.

Affected Public: State, Local or Tribal, and Federal Government.

Estimated Number of Respondents: 23,500.

Estimated Number of Responses: 28,059,000.

Estimated Total Annual Burden Hours: 12,626,550.

Estimated Total Annual Respondent Cost: \$471,980,439.

Estimated Respondents' Operation and Maintenance Costs: \$1,974,000.

Estimated Respondents' Capital and Start-Up Costs: \$1,128,000.

Estimated Total Annual Cost to the Federal Government: \$3,356,189.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

FOR FURTHER INFORMATION CONTACT: Laila Ouhamou, Acting Branch Chief, Program Development and Support Brach, Grant Programs Directorate, FEMA, 202-786-9461. You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: FEMA's Homeland Security Grant Program (HSGP) supports State and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. The HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. The HSGP supports core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery based on allowable costs. HSGP is comprised of three grant programs: State Homeland Security Program (SHSP), Urban Area Security Initiative (UASI), and Operation Stonegarden (OPSG). Together, these grant programs fund a range of activities, including planning, organization, equipment purchase, training, exercises, and management and administration across all core

capabilities and mission areas. The authorizing authority of the HSGP is Section 2002 of the *Homeland Security Act of 2002*, as amended (Pub. L. 107-296, as amended) (6 U.S.C. 603).

Collection of Information

Title: FEMA Preparedness Grants: Homeland Security Grant Program (HSGP).

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660-0125.

FEMA Forms: FEMA Form 089-1, HSGP Investment Justification (SHSP and UASI); FEMA Form 089-16, OPSG Operations Order Report; FEMA Form 089-20, OPSG Inventory of Operation Orders.

Abstract: The HSGP is an important tool among a comprehensive set of measures to help strengthen the Nation against risks associated with potential terrorist attacks. DHS/FEMA uses the information to evaluate applicants' familiarity with the national preparedness architecture and identify how elements of this architecture have been incorporated into regional/State/local planning, operations, and investments.

The HSGP is a primary funding mechanism for building and sustaining national preparedness capabilities. The HSGP is comprised of three separate grant programs: The SHSP, the UASI, and OPSG. Together, these grants fund a range of preparedness activities, including planning, organization, equipment purchase, training, exercises, and management and administration costs.

Affected Public: State, Local or Tribal Government.

Estimated Number of Respondents: 2,209.

Estimated Number of Responses: 548,327.

Estimated Total Annual Burden Hours: 866,988.

Estimated Total Annual Respondent Cost: \$65,795,719.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$1,503,065.
