

adverse health effects that may result from occupational exposure to asbestos. The major information collection requirements in the standard include: Implementing an exposure monitoring program that informs workers of their exposure-monitoring results; ensuring notification of on-site employers, at multi-employer worksites, when establishing regulated areas for work performed with asbestos-containing materials (ACMs) and/or presumed asbestos-containing materials (PACMs), of the requirements for such regulated areas, and the measures necessary to protect workers from overexposure; providing medical surveillance for workers potentially exposed to ACMs and/or PACMs, including administering a worker medical questionnaire, providing information to the examining physician, and providing the physician's written opinion to the worker; and maintaining records of objective data used for exposure determinations, worker exposure monitoring and medical surveillance records, training records, the record (*i.e.*, information, data, and analyses) used to demonstrate that PACMs do not contain asbestos, and notifications made, as well as received by building or facility owners regarding the content of ACMs and/or PACMs.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

## III. Proposed Actions

OSHA is proposing an increase in the information collection requirements contained in the Asbestos in Shipyards Standard. The adjustment is primarily the result of the increase of the number of establishments in shipyards. The agency is requesting an increase of 47 hours in the current burden hour total (from 1,189 hours to 1,235 hours). The agency will summarize the comments submitted in response to this notice and

will include this summary in the request to OMB.

*Type of Review:* Extension of a currently approved collection.

*Title:* Asbestos in Shipyards Standard (29 CFR 1915.1001).

*OMB Control Number:* 1218-0195.

*Affected Public:* Business or other for-profits; Federal Government; State, Local or Tribal Government.

*Frequency:* On occasion.

*Average Time per Response:* Various.

*Estimated Total Burden Hours:* 1,235.

*Estimated Cost (Operation and Maintenance):* \$44,578.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87593; File No. SR-CboeEDGX-2019-070]

### Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Subparagraph (a)(1) of Rule 11.1 To Allow the Exchange To Accept Market Orders With a Stop Price Entered Between 6:00 and 7:00 a.m. Eastern Time

November 22, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on November 19, 2019, Cboe EDGX Exchange, Inc. ("Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. ("EDGX" or the "Exchange") is filing with the Securities and Exchange Commission (the "Commission") a proposed rule change to amend subparagraph (a)(1) of

Rule 11.1 to allow the Exchange to accept Market Orders with a Stop Price entered between 6:00 and 7:00 a.m. Eastern Time. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website ([http://markets.cboe.com/us/options/regulation/rule\\_filings/edgx/](http://markets.cboe.com/us/options/regulation/rule_filings/edgx/)), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend subparagraph (a)(1) of Rule 11.1 to allow the Exchange to accept Market Orders<sup>3</sup> with a Stop Price<sup>4</sup> (a "Stop Order") entered between 6:00 and 7:00 a.m. Eastern Time.

Subparagraph (a)(1) of Rule 11.1 provides that orders entered between 6:00 a.m. and 7:00 a.m. Eastern Time are not eligible for execution until the start of the Early Trading Session,<sup>5</sup> Pre-Opening Session<sup>6</sup> or Regular Trading Hours,<sup>7</sup> depending on the Time in Force selected by the User.<sup>8</sup> Subparagraph (a)(1) also provides that the Exchange will not accept certain orders<sup>9</sup> entered

<sup>3</sup> A Market Order is an order to buy or sell a stated amount of a security that is to be executed at the NBBO or better when the order reaches the Exchange. See Exchange Rule 11.8(a).

<sup>4</sup> A Market Order "may include a Stop Price which will convert the order into a Market Order when the Stop Price is triggered. An order to buy converts to a Market Order when the consolidated last sale in the security occurs at, or above, the specified Stop Price. An order to sell converts into a Market Order when the consolidated last sale in the security occurs at, or below, the specified Stop Price." See Exchange Rule 11.8(a)(1).

<sup>5</sup> See Exchange Rule 1.5(ii).

<sup>6</sup> See Exchange Rule 1.5(s).

<sup>7</sup> See Exchange Rule 1.5(y).

<sup>8</sup> See Exchange Rule 1.5(ee).

<sup>9</sup> Specifically, Exchange Rule 11.1(a)(1) provides that orders with a Post Only instruction,

prior to 7:00 a.m. Eastern Time including Market Orders with a Time in Force other than Regular Hours Only ("RHO").<sup>10</sup> Market Orders with a Time in Force other than RHO are rejected by the Exchange prior to 7:00 a.m. Eastern Time because Market Orders are not eligible to trade prior to the start of Regular Trading Hours and such orders are generally not designated to queue for later entry onto the Exchange's order book. Rather, Market Orders with a Time in Force other than RHO are designed to immediately execute at the NBBO when the order reaches the Exchange, and thus are generally intended for entry during a trading session where continuous trading is occurring. Alternatively, other order types and modifiers, such as Market Orders with a Time in Force of RHO and Limit Orders,<sup>11</sup> including Limit Orders with a Stop Limit Price ("Stop Limit Orders"),<sup>12</sup> are allowed for entry on the Exchange between 6:00 and 7:00 a.m. Eastern Time as those order types and modifiers are consistent with an order designated to queue for later entry on to the Exchange's order book. Specifically, Market Orders with a Time in Force of RHO are effectively for use in the Opening Auction and are cancelled if not executed in the Opening Auction. Therefore, Market Orders with a Time in Force of RHO would be queued until the start of the regular trading session for participation in the Opening Auction. Similarly, the Stop Price of a Stop Limit Order can only be triggered by a consolidated last sale eligible trade.<sup>13</sup> Therefore, a Stop Limit Order would be queued until the time the Stop Price of

Intermarket Sweep Orders ("ISOs"), Market Orders with a Time in Force instruction other than Regular Hours Only, orders with a Minimum Execution Quantity instruction that also include a Time in Force instruction of Regular Hours Only, and all orders with a Time in Force of Immediate-or-Cancel ("IOC") or Fill-or-Kill ("FOK") are not accepted if entered prior to 7:00 a.m. Eastern Time.

<sup>10</sup> RHO is an "instruction a User may attach to an order designating it for execution only during Regular Trading Hours, which includes the Opening Process and Re-Opening Process following a halt suspension or pause." See Exchange Rule 11.6(q)(6).

<sup>11</sup> A Limit Order is an "order to buy or sell a stated amount of a security at a specified price or better. A marketable Limit Order is a Limit Order to buy (sell) at or above (below) the lowest (highest) Protected Offer (Protected Bid) for the security." See Exchange Rule 11.8(b).

<sup>12</sup> A Stop Order "may contain a Stop Limit Price which will convert to a Limit Order once the Stop Limit Price is triggered. A Limit Order to buy with a Stop Limit Price becomes eligible for execution by the System when the consolidated last sale in the security occurs at, or above, the specified Stop Price. A Limit Order to sell with a Stop Limit Price becomes eligible for execution by the System when the consolidated last sale in the security occurs at, or below, the specified Stop Limit Price." See Exchange Rule 11.8(b)(1).
