

additional benefit of bringing the Operating Agreement into greater conformity with the NYSE American Operating Agreement, which does not require that the NYSE American Non-Affiliated Directors qualify as independent under the NYSE American Director Independence Policy, and the bylaws of the Exchange's affiliates NYSE Arca, Inc., NYSE Chicago, Inc. and NYSE National, Inc., none of which require that the directors nominated by their trading permit holders be qualified as independent. In addition, the proposed amendments would make Section 2.03 more consistent with the governing documents of other self-regulatory organizations that do not require that the directors nominated by the membership of the exchange be independent.

The Exchange believes that the proposed amendment to Section 2.02 of the Operating Agreement would enable the Exchange to be so organized as to have the capacity to carry out the purposes of the Exchange Act and comply with the provisions of the Exchange Act by its members and persons associated with members because it would remove an obsolete reference to allied members, thereby adding clarity and transparency to the Operating Agreement by removing any confusion that may result if it retained such obsolete reference. The Exchange further believes that market participants would benefit from the increased clarity, reducing potential confusion.

The proposed amendments to effect non-substantive technical and conforming changes would enable the Exchange to be so organized as to have the capacity to be able to carry out the purposes of the Exchange Act and to comply, and to enforce compliance by its exchange members and persons associated with its exchange members, with the provisions of the Exchange Act, the rules and regulations thereunder, and the rules of the Exchange because the changes would ensure that persons subject to the Exchange's jurisdiction, regulators, and the investing public can more easily navigate and understand the Operating Agreement.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Exchange Act. The proposed rule change is not intended to address competitive issues but rather is concerned solely with the administration and functioning of the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or up [sic] to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve or disapprove the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Extension:

Rule 17f-7; SEC File No. 270-470; OMB Control No. 3235-0529.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3521) ("Paperwork Reduction Act"), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget ("OMB") for extension and approval.

Rule 17f-7 (17 CFR 270.17f-7) permits a fund under certain conditions to maintain its foreign assets with an eligible securities depository, which has to meet minimum standards for a depository. The fund or its investment adviser generally determines whether the depository complies with those requirements based on information

²⁴ 17 CFR 200.30-3(a)(12).

provided by the fund's primary custodian (a bank that acts as global custodian). The depository custody arrangement also must meet certain conditions. The fund or its adviser must receive from the primary custodian (or its agent) an initial risk analysis of the depository arrangements, and the fund's contract with its primary custodian must state that the custodian will monitor risks and promptly notify the fund or its adviser of material changes in risks. The primary custodian and other custodians also are required to agree to exercise at least reasonable care, prudence, and diligence.

The collection of information requirements in rule 17f-7 are intended to provide workable standards that protect funds from the risks of using foreign securities depositories while assigning appropriate responsibilities to the fund's primary custodian and investment adviser based on their capabilities. The requirement that the foreign securities depository meet specified minimum standards is intended to ensure that the depository is subject to basic safeguards deemed appropriate for all depositories. The requirement that the fund or its adviser must receive from the primary custodian (or its agent) an initial risk analysis of the depository arrangements, and that the fund's contract with its primary custodian must state that the custodian will monitor risks and promptly notify the fund or its adviser of material changes in risks, is intended to provide essential information about custody risks to the fund's investment adviser as necessary for it to approve the continued use of the depository. The requirement that the primary custodian agree to exercise reasonable care is intended to provide assurances that its services and the information it provides will meet an appropriate standard of care.

The staff estimates that each of approximately 960 investment advisers¹ will make an average of 8 responses annually under the rule to address depository compliance with minimum requirements, any indemnification or insurance arrangements, and reviews of risk analyses or notifications. The staff estimates each response will take 6 hours, requiring a total of approximately 48 hours for each adviser.² Thus the total annual burden associated with these requirements of the rule is

approximately 46,080.³ The staff further estimates that during each year, each of approximately 40 global custodians will make an average of 4 responses to analyze custody risks and provide notice of any material changes to custody risk under the rule. The staff estimates that each response will take 260 hours, requiring approximately 1,040 hours annually per global custodian.⁴ Thus the total annual burden associated with these requirements is approximately 41,600 hours.⁵ The staff estimates that the total annual hour burden associated with all collection of information requirements of the rule is therefore 87,680 hours.⁶

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act and is not derived from a comprehensive or even a representative survey or study of the costs of Commission rules and forms. Compliance with the collection of information requirements of the rule is necessary to obtain the benefit of relying on the rule's permission for funds to maintain their assets in foreign custodians. The information provided under rule 17f-7 will not be kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to Charles Riddle, Acting Director/Chief Information Officer, Securities and Exchange Commission, C/O Cynthia Roscoe, 100 F Street NE, Washington, DC 20549; or send an email to: PRA_Mailbox@sec.gov.

³ 960 advisers × 48 hours per adviser = 46,080 hours.

⁴ 260 hours per response × 4 responses per global custodian = 1,040 hours per global custodian.

⁵ 40 global custodians × 1,040 hours per global custodian = 41,600 hours.

⁶ 46,080 hours + 41,600 hours = 87,680 hours.

Dated: November 25, 2019.

Eduardo A. Aleman,
Deputy Secretary.
