### General Description of Collection:

Section 24 of the Federal Deposit Insurance (FDI Act), 12 U.S.C. 1831a, limits investments and other activities in which state banks may engage, as

principal, to those permissible for national banks and those approved by the FDIC under procedures set forth in part 362 of the FDIC's Rules and Regulations, 12 CFR part 362. With

certain exceptions, section 24 of the FDI Act limits the activities and investments of state banks to those activities and investments that are permissible for national banks. In addition, the statute

prohibits a state bank from directly engaging, as a principal, in any activity or investment that is not permissible for a national bank, or indirectly through a subsidiary in an activity or investment that is not permissible for a subsidiary of a national bank, unless such bank meets its minimum capital requirements and the FDIC determines that the activity or investment does not pose a significant risk to the Deposit Insurance Fund (DIF). The FDIC can make such a determination for exception by regulation or by order. Section 28(a), 12 U.S.C. 1831e, similarly limits the investments and activities of state savings associations and their service corporations to those permitted by federal savings associations and their service corporations, absent FDIC approval. Part 362 details the activities that state banks or their subsidiaries may engage in, under certain criteria and conditions and identifies the information that state banks must furnish to the FDIC in order to obtain the FDIC's approval or non-objection. Part 362 also applies to the activities and investments of state savings associations and their subsidiaries.

There is no change in the method or substance of the collection. The overall reduction in burden hours is the result of economic fluctuation. In particular, the number of respondents has decreased while the hours per response and frequency of responses have remained the same.

#### *Request for Comment:*

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
