To value those lost uses the Trustees are using a value to cost approach, employing a Travel Cost Model, along with Benefits Transfer, for certain human use losses. The Trustees will work cooperatively with local governmental agencies and non-governmental organizations to identify a suite of potential restoration projects according to the relative magnitude of the spill. It is the goal of the Trustees to select projects spanning the geographic area of the spill and to address the various types of activities that were impacted by the spill.

During restoration planning, the Trustees evaluate potential projects, determine the scale of restoration actions needed to make the environment and the public whole, and release a draft Damage Assessment and Restoration Plan for public review and comment.

Based upon information in the Administrative Record and the foregoing determinations, the Trustees intend to proceed with restoration planning for this Incident.
