

May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 17, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0088, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Refractory Products Manufacturing (40 CFR part 63, subpart SSSSS) apply to each refractory products manufacturing facility which produces refractory bricks, refractory shapes, monolithics, kiln furniture, crucibles, and other materials used as linings for boilers, kilns, and other

processing units and equipment where extreme temperature, corrosions, and abrasion would destroy other materials. These regulations apply to existing facilities and new facilities that manufacture refractory products and use organic hazardous air pollutant (HAP), chromium refractory, and clay refractory products. New facilities include those that commenced construction, modification or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP. This information is being collected to assure compliance with 40 CFR part 63, subpart SSSSS.

Form Numbers: None.

Respondents/affected entities: Refractory products manufacturing facilities.

Respondent's obligation to respond:

Estimated number of respondents: 8 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 306 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$37,800 (per year), includes \$3,040 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The decrease in burden from the most-recently approved ICR is not due to any program changes. The decrease in burden is due to correction of a mathematical error in the prior ICR, which inadvertently double-counted the burden for respondents to read and re-familiarize themselves with the rule requirements annually. This ICR updates the burden estimate for this requirement from 4.5 hours to 0.5 hours per respondent. The overall result is a decrease in the burden hours. There was no change in the capital/startup and O&M costs.

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Reinforced Plastic Composites Production (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Reinforced Plastic Composites Production (EPA ICR No. 1976.07, OMB Control No. 2060-0509), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested via the **Federal Register** on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 17, 2019.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Reinforced Plastic Composites (RPC) Production (40 CFR part 63, subpart WWWW) apply to both existing facilities and new facilities with reinforced plastic composites (RPC) production operations and processes. New facilities include those that commenced construction or reconstruction after the date of proposal.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart WWWW.

Form Numbers: None.

Respondents/affected entities: Facilities with RPC production operations and processes.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart WWWW).

Estimated number of respondents: 448 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 14,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,160,000 (per year), which includes \$468,000 annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The decrease in burden from the most-recently approved ICR is not due to any program changes. The change in the burden and cost estimates occurred because the total number of respondents

has decreased due to consolidation within the industry, and no new respondents are anticipated over the next three years of this ICR. The decrease in the number of existing and new respondents also results in a reduced number of total annual responses; this ICR reduces the number of responses associated with submittal of exceedance reports from existing respondents and excludes responses associated with the submittal of initial notifications or performance test plans or results that were previously only required from new respondents. Additionally, there is a decrease in the Agency burden as this ICR removes the burden associated with review of submitted initial notifications and materials related to performance tests, which are only applicable to new respondents. There is also an adjustment decrease in the capital/startup and O&M costs due to the reduced number of respondents.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI
